RUSSIAN RETREAT STREWN WITH DEAD

Japanese Capture Many Men and Valuable Stores.

KUROPATKIN AGAIN REPORTS

He Says Japanese Army Is Being Constantly Re-enforced—Russian Soldiers Are Disheartened and Surrender in Squads to Mikado's Men.

Tokio, March 14.—11 a. m.—A telegram received today from headquarters in the field, says:

"In th edirection of Singchin our forces have been dislodging the enemy in Yingpao 18 miles from Fushun, and on March 11 occupied the place.

"In the direction of Singchin our all of our forces are continuing the pursuit of the remnant of the enemy and many Russian officers and men are surrendering to our train guards in the mountainous districts east of the Tie Pass road.

Additional spoils taken in the direction of the Shakhe river are wagons and carts captured southeast of Chiulikoutzu. They exceeded 1,000 loaded with gun and ammunition, small ammunition, entrenching tools, telegraph and telephone equipment, pontoon material, supplies, and water boilers.

They also carried 14 eight-centimeter, 1,400 fifteen-centimeter shells and 1,200,000 small ammunition, and various military supplies.

In the direction of Singchin the spoils included 120,000 small ammunition, 800 shells and 3,000 entrenching tools.

Russians Surrender in Squads.

General Kuroki's Headquarters in the field, via Fusan, March 14.—The country is swarming with hungry, disheartened Russians, who are surrendering in squads to any pursuing Japanese they meet. The Japanese officers have refused to criticise the lack of mobility displayed while driving the Russians through Tie pass.

Most of the foreign attaches with the Russian army, including two American and English officers were captured at Mukden.

10,000 Russians Killed.

Japanese Left Armies, March 8, via Yin Kow, March 13.—(Delayed in Transmission.)—From noon until darkness yesterday the left column from General Oku's army fought a desperate fight near Likempu, 7 miles north of the Hun river, and 8 miles west of the railway. The Russian forces outnumbered the Japanese 3 to 1. The Russians, who had been heavily re-enforced in the south, rushed out of their trenches to meet the advancing Japanese and a fierce hand-to-hand fight ensued, the soldiers using their bayonets and the officers their swords. The Russian casualties were over 10,000 killed and wounded and the Japanese a little over 3,000. The Russians dead were left on the field in heaps among the many staff officers.

Report from Gen. Kuropatkin.

St. Petersburg, March 15.—General Kuropatkin in a dispatch dated March 13 says he has received no further report of any fighting between organized bodies of troops and announces that the Japanese are making reconnaisances.

In a dispatch filed the previous day the Russian commander in chief, notified the emperor that General Meyendorff fell from his horse March 10 and fractured his collar bone. He was taken to Harbin and his early recovery is hoped for.

Denies Recall of Squadron.

St. Petersburg, March 15.—A semi-official denial was given out here today for the reported recall of the Russian second Pacific squadron.

Big Sale of Coal Lands.

Birmingham, Ala., March 15.—A deal has been closed whereby ex-Governor E. E. Jackson, of Maryland, disposed of 20,000 acres of coal lands on the Ensley Southern railroad to the president of the Alabama Coal company of this city, for $500,000.

3,000 MILES WITHOUT A STOP

Wonderful Locomotives Ordered by Southern Pacific Railroad.

Chicago, March 15.—Three thousand miles without a stop and at the rate of 100 miles or more an hour is the capacity of a new type of locomotive which has been ordered by the Southern Pacific railroad.

If it does all that its makers promise for it, this locomotive, which is a revision of the Dissel engine, will revolutionize transportation.

The locomotive, or really power-house on wheels, is entirely different from anything now in use. The cost of operating it will be less than one-half of the cost of operating the present type of steam engine. Fuel oil, costing but 3 or 5 cents a gallon is the only fuel that has to be purchased and there is no necessity for erecting and maintaining expensive water tanks or coal chutes.

The machine is what is known as the four-stroke cycle. There is a compressed air reservoir from which the power is obtained for starting. This gives the piston its first stroke, when it takes in the air alone by atmospheric pressure and temperature. The second stroke compresses the air and raises it to a temperature of about 1,000 degrees Fahrenheit. The third stroke is at what is known as the working stroke. The oil is sprayed into the hot air, the amount being regulated by governors. During the first part of this stroke the combustion of this oil is carried at a constant pressure for a period that is regulated by the amount of oil sprayed. The second part of the stroke is practically an expansion with transferences of heat and the fourth stroke exhausts the gases.

WOODMEN HOLD BIG MEETINGS.

Waco, Tex., and Nashville, Tenn., Are Places Where Meetings Are Held.

Waco, Tex., March 15.—The head camp biennial meeting of the Woodmen of the World, including jurisdiction "C," which is formed by the camps of Texas, Arizona and New Mexico, convened today for a four days' session. Two thousand woodmen are present. Head Consul W. A. Frasure, of Dallas, is presiding over the meetings.

The most important matter before the meeting is the proposed establishment of a great sanitarium in a healthful location where the sick and infirm may be cared for. The sanitarium is to cost $100,000.

The report of the sanitarium committee propose a plant for disposing of the fraternity's building at the St. Louis world's fair by removing it to New Mexico and using it for a joint fraternal sanitarium.

Nashville, Tenn., March 15.—The fifth biennial session of head camp No. 4, Kentucky and Tennessee Woodmen of the World, convened here today. Head Consul Patterson, of Chattanooga, called the convenelon to order. There are about 350 delegates present. The business meeting will be held tomorrow. There are 7,000 members of the order in Tennessee and 5,000 in Kentucky.

Decrease in Fertilizer Shipments.

Wilmington, N. C., March 15.—Railroad people at the headquarters of the Atlantic Coast Line here say that fertilizer shipments are far behind last year over the large territory covered by the system. While the movement is very heavy just at present, and the various lines are hauling all they can find cars to accommodate, the season was late in opening and the time now left remaining will permit of shipments only far below last season. It is the opinion that the movement will be more than 25 per cent cut off and that the reduction of the cotton acreage will be correspondingly great.

Prof. Harper Leaves for Lakewood.

Chicago, March 15.—President W. R Harper, of the University of Chicago left on the Twentieth Century limited today for New York, where he was the guest of John D. Rockefeller, after which he will receive X-ray treatment for cancer at Lakewood, N. J. President Harper was accompanied by Dr. Joseph F. Smith, X-ray specialist of the Presbyterian hospital; Samuel Harper, his son, and Miss Cobb, stenographer. President Harper is able to walk.

TWENTY LIVES LOST IN TENEMENT FIRE

Heroic Work of Firemen and Policemen Save Many.

40 OTHERS SERIOUSLY INJURED

New York City Is the Scene of a Terrible Calamity—Explosion of a Kerosene Lamp Starts Awful Blaze Which Resulted Fatally.

New York, March 15.—At least a score of persons were burned to death, several were so badly hurt that they may die and 40 others received slight hurts in a fire that practically destroyed a five story tenement house in Allen street early today. The fire had gained great headway before it became known to most of the tenants, and many of them were cut off before they could make an attempt to save themselves. Thrilling rescues and daring leaps for life marked the fire. Scores were carried from the blazing building. Firemen with scaling ladders braved the flames and reached the imperiled tenants. Those so far recovered only the following have been identified:

Rachel Solomon.
Jacob Solomon.
Abraham Solomon.
Isaac Solomon.
Jessie Cohen.
Rose Wiener.
Sander Wiener.
Ida Muskowitz.
Harry Kauffman.
Rose Miller.
Morris Miller.

Crowded fire escapes in the rear of the tenant house were largely responsible for so many deaths and injuries among its population, which approached 200 souls.

The scenes about the building after the fire was over and when the search for the dead was begun were heartrending. Nothing so pitiful has been seen in New York city since the Slocum disaster, when 1,000 people lost their lives.

The fire started in the basement, occupied by Isaac Davis, his wife and three children. Davis had been out last night and returning to his home early this morning went into his store on the same floor just in time to see a kerosene lamp in the rear explode. He awoke his wife and both tried to put out the flaming lamp but without success and then gave all their attention to getting their children out of the burning building. A policeman who heard the cry of alarm rushed to the scene and an effort was made to arouse the sleeping persons in the house.

In the meantime the flames had spread with startling rapidity and when the persons who had been asleep on the upper floors awoke they found themselves confronted by a wall of flames on nearly every side. Scenes of the wildest description followed with the panic stricken people rushing for the fire escapes only to find them littered with rubbish of all descriptions and almost impassable.

Down through this cluttered narrow passage way fled a stream of humanity. On some of the escapes the rubbish was so closely packed that it became impossible to pass certain points and men, women and children stood literally roasting to death as the flames roared through windows around them.

One County Worth $200,000,000.

New York, March 15.—The state and county taxes in Westchester, which are to be apportioned by the supervisors will show an assessment on $200,000,000 worth of property, and Westchester people will pay $450,813.67 in taxes, which is more than is collected in the state of Nevada. The great estates of the Rockefellers and other millionaires are the cause of the great assessments.

Gaynor-Greene Case Postponed.

Montreal, March 15.—At the request of the attorneys of Messrs. Gaynor and Greene, whose extradition the United States authorities are endeavoring to effect, their case has been postponed until March 22, when, it is said, it will positively be taken up.

INDEPENDENT PIPE LINES.

Fight on Standard Oil Company Stimulates New Refineries.

Kansas City, Mo., March 15.—As a result of the fight against the Standard Oil company in Kansas elaborate plans for the erection by independent companies of pipe lines and refineries are in progress of formation, according to the Times.

J. B. and A. L. Levy, oil men, formerly from the Lima, O., field, are credited with having planned the erection of a refinery at Kansas City for the production of fuel oil, the crude material product to be piped from Kansas. The plans calls for an outlay of three quarters of a million dollars and a daily output of 200,000 barrels of crude oil.

At Chanute, Kans., a meeting of producers has been held to consider the project for a pipe line to Port Arthur, Tex. At the meeting a Chanute banker asserted that he had sold to an English concern operating largely at Beaumont, Tex., and in the Russian fields, $7,500,000 in bonds to push the enterprise. The line would be 650 miles in length, and have a capacity of 2,000 barrels of oil a day. The Cudahys and John W. Gates are said to be interested in the Port Arthur project.

LIVES LOST BY FALLING BRIDGE

Bridge Collapsed on Account of Swollen River; 12 Lives Lost.

Los Angeles, Cal., March 15.—The Seventh street bridge, over Los Angeles river, fell Monday, carrying with it into the flood swelled river 12 to 15 persons, 12 of whom are believed to have been drowned. The list includes:

Two unknown men, bodies thought to have been carried down the river.

Mrs. Clara Webb, of East Seventh street, rescued from the flood, but probably fatally hurt by falling timbers.

The high water in the river has attracted a number of sightseers to the bridge. The buttresses of the bridge had been weakened by the flood, and when a sudden swelling of the waters came the supports were carried away, and the bridge collapsed. Police are on guard to keep people off the Ninth street bridge.

Flood conditions in Los Angeles and vicinity are the wrost known in many years. Los Angeles river, flooded by tributaries from the mountains and from the high country where heavy floods have occurred is bank full, and has reached the highest point known in 13 years.

DEATH FROM STARVATION.

Young Woman and Her Babe Found in a Dying Condition.

New York, March 15.—A young woman describing herself as Ida Fletcher, or Levy, 22 years of age, and who says she came to this city from a Connecticut town a year ago, has been found dying from starvation in a small room of a Harlem tenement house. With her was a baby 8 months old. Quick consumption has seized the mother, and she can live only a few days, but she refuses to tell the name of her parents.

Neighbors notified the police when they learned of her pitiful state. A friend had daily left a can of condensed milk for the baby. The girl shared this, and this was all the nourishment she had in 20 days. The baby was emaciated and weak, but it is believed it can be saved.

The girl will only say she fell into bad company. She has pawned everything of value and finally became too ill to leave her bed. An effort is being made to locate her parents in New England.

Saw Sunken Steamship.

Charleston, S. C., March 15.—The captain of the fishing smack Verona, arriving here reports having seen the topmasts of a steamer in 14 fathoms of water about 30 miles south of the Charleston light, off Bull's bay. The water was clear, and the smack sailed near enough to see the funnel and derricks below the surface. Nothing is known here of a missing steamship.

Alabama's Governor Returns.

Montgomery, Ala., March 15.—Governor W. D. Jelks, who has been in New Mexico a year for his health, will return Thursday, relieving Lieutenant Governor Cunningham, who has been acting.

SENATOR TELLER IS OPPOSED TO TREATY

Wants Senate to Consider It In Open Session.

MONEY FOR CONSCIENCE FUND.

Senate Committee on Interstate Commerce Will Begin Its Meetings April 17 to Consider Question of Freight Rates.

Washington, March 15.—When the Santo Domingo treaty was taken up in executive session of the senate today Senator Teller again made a plea for an open session for the discussion of the law points which he said were involved in the treaty. The senate committee on foreign relations were complimented by Senator Teller for the efforts it had made to satisfactorily amend the treaty and he declared that the convention with perhaps one or two additional amendments had been put in the best position.

"But," he said, "it is impossible to amend the treaty so that it will satisfy me. I am opposed to it for fundamental and basic reasons. He declared that the policy to be embarked upon under the treaty was contrary to our form of government and a dangerous precedent to establish.

Objection was made by Senator Foraker to opening the doors. After this question had been disposed of for the second time, Senator Morgan took the floor and discussed the Dominican debt for the purpose of showing that it was largely made up of fraudulent claims. He talked also of the revenues of the government and used as a basis the data which he recently presented to the senate and which was printed as a senate document.

Chairman Elkins, of the senate committee will begin hearings on the railway rates subject Monday, April 17.

No quorum appeared today when the committee was called, but Senator Elkins ascertained the views of the members of the committee and fixed the date.

The absence of a quorum was suggested by Mr. Gallinger, when the senate convened at 11 a. m. today. The roll was called and after some delay 44 senators, a quorum, responded to their names.

At 11:14, on motion of Mr. Cullom, the senate went into executive session.

Secretary of Treasury Shaw today received the following communication:

"Dear Sir—I am sending you herewith enclosed $12,000 which is to go to the use of the United States government. Years ago I defrauded the government of money, but have returned it all, and now am paying four-fold in accordance with the teaching of Scripture. The way of the transgressor is hard, and no one but God knows how I have suffered the consequences, and I would seek to do a bountiful restoration. May God pardon me, while the United States government is benefited. (Signed) A Sinner."

The amount, which was in currency, has been deposited in the treasury to the credit of the conscience fund.

Sultan's Officers Flee for Life.

Constantinople, March 15.—Another palace intrigue, so common in the sultan's entourage has just come to light involving a trio of high Ottoman officials, Generals Ahmet Pasha and Riza Pasha, aides-de-camp of the sultan and Aref Bey, his majesty's chamberlain. It is said that the three officials fled abroad to escape the machinations of a secret police cabal at the Yildiz kiosk, who were said to be bent on their destruction. Riza Pasha was recently attacked and wounded in the abdomen. The assault is alleged to have been at the instigation of the chief of the secret police.

Aged Woman Dies of Fright.

New York, March 15.—Mrs. John Fletcher, 60 years old, is dead from fright at her home in Lakewood, N. J. Her grandson had set fire to a brush heap in the front yard, and Mrs Fletcher, fearing it would spread to the house, hurried out with a pail of water. A puff of flame caught the bottom of her dress and she fell dead with a scream of terror.

CLOSING FUNCTIONS A GRAND SUCCESS

Dr. Strouse Expects to Make Them Still Greater Next Year.

WANTS A FINER PROGRAM

Has Already Secured Some of the Finest Talent in the United States for the Next Session, Being Compelled to Engage Them in Advance.

After a successful session of six weeks the Winter Bible Conference, the Christian Workers' Institute and the Gainesville Chautauqua, closed their second annual meetings, which were highly interesting, instructive and enjoyable in every sense of the word.

The people of Gainesville owe a debt of everlasting gratitude to the man who brought these attractions here, Rev. Clarence B. Strouse. It was almost solely through the earnest efforts of this distinguished and earnest worker that the functions have proved of such eminent success, and to him is due the presence of so many strangers in our city during the season, being attracted here by the high class of entertainment which was secured, and through persistent advertising.

Next Year's Program.

Filled with enthusiasm over the sessions just closed, Dr. Strouse has already gone to work on the programs for next year. He states that the prospects for the next season, as far as the program is concerned, promises to eclipse anything ever brought to Florida before. "I expect to have the greatest speakers and workers for the Bible Conference we have ever had, and I can assure you will be the best

DR. C. B. STROUSE,
The Man Who Has Accomplished So Much for Gainesville.

the United States affords. Dr. David Vaughn Gwilym and Dr. Tigert will probably be the only speakers of the old program. These gentlemen are both eloquent and earnest, and I appreciate them to such an extent that I have retained them for next season. Dr. J. Wilbur Chapman of Chicago, one of the most noted revivalists in the United States, with whom I have been associated on several occasions, promises to be here for the entire session of six weeks. Dr. R. V Miller of New York, a noted Bible teacher, has also been engaged for the entire season. I was compelled to engage Dr. Miller a year in advance, so great was the demand for his services in all parts of the United States."

Dr. Strouse stated that in addition to these famous divines he is already in correspondence with a number of great workers to secure their services for next year. The Christian Workers' Institute will be in the hands of an able teacher. Dr. Strouse has two or three parties in view, and has not yet decided whom he will send for this particular work.

The Chautauqua.

"Referring to the Chautauqua," remarked Dr. Strouse, "I am just in receipt of a letter from Dr. Davidson, the manager, assuring me that if the people of Gainesville will stand by him in the promotion of this enterprise which has accomplished so much for Gainesville, he proposes to present a still greater program than the one just closed. Every progressive citizen of Gainesville should stand by this enterprise, which is one of the greatest and most beneficial that can be offered to any city. The Chautauqua is yet in its infancy, but already we can feel its results, as was demonstrated by the large number of strangers attracted here this season. This class of entertainment, which is both moral and refining, forces Gainesville to the front as a most desirable resting-place for winter visitors—and if given the proper support the Chautauqua and the city must naturally go hand-in-hand on the road of progress each year."

When we look at the excellent program of high-class talent and see the great number on the program, and consider that each must be paid—one lecturer receiving as high as $200, and one entertainment consuming $80 worth of liquid air in the demonstration of its value from a standpoint of knowledge, to say nothing of the expenses and enormous railroad fare in moving more than thirty people who took part in the program, it can readily be seen what an expensive enterprise the Chautauqua is proving, and how much benefit the city is receiving for so little expenditure, to say nothing of the enjoyment afforded those who help the enterprise financially.

An effort is being made now to secure a "star" list of tickets for the next season. George W. Hyde, who originated the suggestion, headed the list and has the matter in hand. The price of the ticket for the entire season will be $10. This suggestion was made and accepted to prevent the selling of tickets at cut prices, as was the custom in some instances this season, and also as an advanced assurance of the confidence of the people of Gainesville in the enterprise. When Dr. Strouse is presented the list, be sure that he is encouraged by seeing your name among the number. As the Doctor says, "Actions speak louder than words."

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the council." This remedy is for sale by all druggists.

Colored Politicians.

One of the most largely attended and most enthusiastic meetings among the colored people ever held in this city convened at Johnson's Hall, North Pleasant street, Monday evening, when the following municipal ticket was nominated:

For mayor, W. R. Thomas; for marshal, R. A. Becker; for assessor, William Bradford; for aldermen, A. M. Cushman, W. B. Taylor, L. C. Lynch and J. B. Padgett.

The meeting was presided over by S. B. Willis. William Nelson is chairman of the political club.

Invaluable for Rheumatism

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24th, 1902, John C. Degnan, Kinsman, Ill. 25c, 50c and $1. Sold by W. M. Johnson.

FROM MR. LETSON.

Gives an Idea of Trucking Interests in North Carolina.

R. E. Letson, formerly of Micanopy but now residing in Newbern, N. C., in remitting his subscription to The Sun writes interestingly as follows:

"We are having a cold northeast storm and it is bad weather. It has been very warm for the past ten days. We can see a little life in some of the trees. Maple and redbud are putting out just a little. There is nothing green except a few people who know the difference between North Carolina and Florida.

"The lettuce is fine. We have six acres under cover. Mr. Suttler has four, Spicer & Clark have six, Mr. Bray has four—all under cover. That takes in the lettuce in this section. The cabbage crop will be good. They bed the cabbage land and set on the south side of the bed. They set in November. The little plants stay there and freeze all winter, and about the middle of March they side-dress them. That is the first work they get. I see some peas up. We planted seventy-five acres in potatoes the past week."

Champion Liniment for Rheumatism.

Chas. Drake, a mail carrier at Chapinville, Conn., says: "Chamberlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the storekeeper here recommended this remedy and it completely cured me." There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. For sale by all druggists.

Fire In Big Printing Office.

Chicago, March 15.—Fire destroyed the printing and box department of of the Grand Crossing Tack company plant at Seventy-ninth street and South Chicago avenue. The loss is $150,000. The entire plant, valued at $1,000,000, employed 800 men. At the first shout of fire there was panic among the women and girls on the upper floors but the firemen and superintendents throughout the plant got employes out without loss of life. Scores of children are employed at the plant.

Cured Consumption.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and $1. Sold by W. M. Johnson.

Marquis of Anglesey Dead.

Monte Carol, March 15.—The Marquis of Anglesey died here today. The marquis was notable through his personal and financial eccentricities. His wife arrived here two days ago and was present with her husband at his death bed. A cousin inherits the estate, which amounts to considerable.

Startling Mortality.

Statistics show startling mortality from appendicitis and peritonitis. To prevent and cure these awful diseases there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, 14 Custom House Place, Chicago, says: "They have no equal for constipation and biliousness." 25c at druggists.

GOOD BLOOD
TELLS ITS OWN STORY

And tells it eloquently in the bright eye, the supple, elastic movement, the smooth, soft skin, glowing with health, a body sound and well, an active brain, good appetite and digestion, refreshing sleep, energy to perform the duties and capacity to enjoy the pleasures of life. The blood is the most vital part of the body; every organ, muscle, tissue, nerve, sinew and bone is dependent on it for nourishment and strength, and as it circulates through the system, pure and strong, it furnishes to these different parts all the healthful qualities nature intended. When, from any cause, the blood becomes impure or diseased, it tells a different story, quite as forceful in its way. Itching, burning skin diseases, muddy, sallow complexions, disfiguring sores, boils, carbuncles, etc., show the presence, in the blood, of some foreign matter or poison. Rheumatism, Catarrh, Contagious Blood Poison and Scrofula, are effects of a deeply poisoned blood circulation. These may either be inherited or acquired, but the seat of trouble is the same—the blood. S. S. S., a purely vegetable blood remedy, cleanses and purifies the circulation and makes it strong and clean. Under its purifying and tonic effects all poisons and impurities are expelled from the blood, the general health is built up, all disfiguring eruptions and blemishes disappear, the skin becomes soft and smooth and robust health blesses life. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison and all diseases of the blood are cured by S. S. S. Book on the blood and any medical advice, free of charge.

JURY HUNG ON MURDER TRIAL

Verdict in Chamberlain Murder Case Not Reached Last Night.

FATE WILL BE KNOWN TODAY

An Endless Chain of Witnesses Were Examined by Both State and Defense, and Case Was Delivered for Consideration of Jury in Late Afternoon.

After completing the examination of the numerous witnesses in the famous case of the State vs. Fletcher Watson, charged with the murder of Garrett V. Chamberlain, and the argument of counsel on same, the case was delivered to the jury Wednesday afternoon about 5:45 o'clock.

Attorney C. C. Thomas opened for the State. He was followed by Attorneys Syd L. Carter and W. E. Baker for the defense, when State's Attorney Benj. P. Calhoun closed for the State. Attorney Baker, who settled here less than a year ago and established his practice, spoke for nearly two hours, and his argument in behalf of the defendant was a most earnest one. Although a young man, Mr. Baker is one of the most impressive speakers to a jury heard in this court room for some time, and it is a foregone conclusion among the "older heads" that he will yet make his mark.

The court adjourned for supper and reconvened at 8 o'clock. At 9 o'clock no verdict had been reached, when the court adjourned until 9 o'clock this morning.

The Park Company.

The Park big stock company appeared last night to a good audience, presenting the three-act comedy "Niobe" in a manner that was highly pleasing, laughable and satisfactory. The matinee, "The Old Homestead," was presented in the afternoon in the usual up-to-date style, and the large number of ladies and children were well pleased.

This company is becoming more popular with each performance, and will always be welcome here.

The company will repeat "Niobe" at the matinee performance this afternoon, beginning at 3 o'clock. The admission will be 15 cents for children, 25 cents for adults to any part of the house—no reserved seats. "Niobe" is one of the finest three-act comedies ever written, and to see it is to appreciate it.

The bill for this evening will be the four-act comedy-drama, "The Convict's Daughter." It is a clean, refined play, and is deserving of a good house.

For an Impaired Appetite.

Loss of appetite always results from faulty digestion. All that is needed is a few doses of Chamberlain's Stomach and Liver Tablets. They will invigorate the stomach, strengthen the digestion and give you an appetite like a wolf. These tablets also act as a gentle laxative. For sale by all druggists.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

CONFERENCE MEETING.

Reports From Methodist Church Departments Were Encouraging.

A meeting of the Church Conference of Kavanaugh Methodist Church was held on Sunday morning last, after the regular service, at which the reports of the pastor, Rev. T. J. Nixon, the Sunday school, the Junior Epworth League, the Woman's Home and Foreign Missionary societies and other departments of the church were read and received.

These reports were encouraging indeed, and showed every department of the church in a most healthy condition.

It was decided in future to hold the conference on the second Sabbath morning of each month.

Rev. T. J. Nixon acted as chairman and H. L. Phifer secretary.

EAST FLORIDA NORMAL.

Opened Monday With Fair Attendance. More to Come Later.

The East Florida Seminary Normal opened on Monday with an attendance of about twenty teachers from various sections of the county, which was quite satisfactory, in view of the fact that the majority of the school terms have not closed. As these schools close it is expected the enrollment will increase, and before a great while the normal will be in a healthy condition.

Prof. Pound anticipates a most successful term. Students at the normal may enjoy the privilege of the regular Seminary courses without the cadet regulations. The Professor will be glad to furnish any further information desired.

Death of Mr. Ward.

Information has reached this city of the death of S. D. Ward, which sad event occurred at his home in New York City on the 4th inst. Deceased was the father of Mrs. E. W. Shaw, formerly of this city, but now residing in Tampa. He is well known here, having visited Gainesville on several occasions. Friends of Mrs. Shaw sympathize deeply with her in the loss of this relative.

A Safe Cough Medicine for Children.

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by all druggists.

VICTOR HUGO.

Everything About Him Was Extraordinary, Even His Digestion.

Never to be forgotten were those evenings when we were lucky enough to find neither minister, senator nor deputy—for in the presence of political men Victor Hugo always seemed to me somewhat stiff—when he warmed to his subject, let himself go, as it were, and his conversation took a natural turn full of charm.

How he would then have astonished those who had represented him as being exceedingly solemn—in fact, a poseur! If they had seen him so it was doubtless due to themselves. Perhaps to the bumptious and self opinionated he gave himself the air of an oracle, but with poets, I repeat, he was ease and simplicity—I might even say familiarity—itself.

At these dinners we could not help admiring his formidable appetite. He ate enormous pieces of roast meat and drank large glasses of undiluted wine. A typical detail struck me particularly. At the end of his meal he dipped orange quarters into his wine and ate them with marked satisfaction. Everything about Victor Hugo was extraordinary, even his digestion.—Francois Coppee in Critic.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

CALIFORNIA

Do you want to live where the climate is mild the year round—where labor is never oppressed by stress of weather, and where animal vitality is never lost by mere conflict with cold?

Do you want to live in a region where the resources are more varied than in any other equal area in the world, where the division of great ranches affords a fine opportunity to get a small farm that will assure you a competence?

Do you want to live where, with a minimum of labor, you can grow profitable crops of grapes and small fruit, oranges, lemons, olives, prunes and almonds, alfalfa and grain, where crops are sure, business is good and capital easily finds profitable investment?

Then go to California, where both health and opportunity await your coming.

The Chicago, Union Pacific and North-Western Line

is the most direct route to the Pacific Coast, and there are two fast through trains daily via this line, over the famous double-track railway between Chicago and the Missouri River. One-way Colonist **$33** tickets are on sale daily, March 1 to May 15, at the rate of $33.00 from Chicago, with correspondingly low rates from all points, give you an unusual chance to make the trip.

These tickets are good on daily and personally conducted excursions, on which a double berth in a Pullman tourist sleeping car from Chicago costs only $7.00. Round-trip tickets are always on sale from all points at reduced rates via the

POLITICAL ANNOUNCEMENTS.

For Marshal.

To the Voters of Gainesville:

I hereby announce myself as a candidate for re-election to the office of marshal, subject to the action of the citizens of Gainesville at the coming municipal election. I leave my case in their hands. If I have discharged my duty as marshal in the past, I ask their indulgence and their votes in future. If they do not think I have discharged my duty, then it rests with them. I will appreciate support, however, and promise as long as in the office to show partiality to no one. Respectfully, CHAS. PINKOSON.

For Marshal.

To the Voters of Gainesville:

I hereby announce myself as a candidate for the office of marshal, subject to the action of the voters of Gainesville at the coming municipal election. Have always been a loyal Democrat, am always ready to render my aid and influence in support of right and justice, and if elected promise a fair and honest service, without fear or favor. Respectfully,

D. A. ROBERTSON.

For Marshal.

I hereby announce myself a candidate for the office of Marshal of the City of Gainesville, and solicit the support of all the voters of said city at the coming election of city officers.

If elected, I promise to give to all the people a vigorous and impartial exercise of the duties pertaining to that office. Respectfully,

RICHARD A. BECKER.

The President would probably be happier if he were as popular with his Congress as he is with the rest of the people.

The Czar need not fear any radical action from a Congress, if he establishes a Senate modeled after the American pattern.

Two detectives in Los Angeles, Cal., are to be honored for spurning bribes. This act of heroism is undoubtedly too notable to pass unrewarded.

Senator Bacon's resolution providing for the removal of civil officers of the United States "for imbecility, incompetency, malfeasance and misfeasance in office," failed to pass for obvious reasons.

Ybor City, Tampa's enterprising suburb, is making rapid strides forward. Immediately following the organization of a bank there, came the announcement that the town was to have a jail.

It was proven in Jacksonville a few days ago that the pen is mightier than the policeman's club, when the editor of The Daily Florida Sun cleaned up on a big policeman who called at the office to seek revenge.

"Missouri started the epidemic of boodle charges," says The Chicago News. Yes, and Missouri has set the example of sending her boodlers to the penitentiary instead of whitewashing them by investigating committees.

During a terrific wind and rain storm at Santa Barbara, Cal., March 12 and 13, upwards of $41,000 in damages to pleasure boats, etc., was done. The ocean boulevard had 600 feet washed away. Four inches of water fell in 36 hours.

Florida has nineteen daily papers, and there is no reason why the publishers should not have an organization the same as the publishers of daily papers in several other States. Meetings might be held at the same time and place the State Press Association meets.

A nine-cent drop on the egg market does not discourage the industrious hen in the least. Alabama cotton-growers may talk about burning cotton when the price drops below eight cents but the hen is just as cheerful when the market conditions are against her as at any other time.

NEW IRISH POTATO.

Luther Burbank, the transformation wizard of California, having fixed the floral world to his liking, has invaded the vegetable kingdom and is now at work on a new potato. He gained his original fame by improvement of this useful tuber, but is ambitious to extend his conquests in this direction. A potato that has grown wild in the central part of South America, an ordinary scrub potato, scorned even by the Indians, but so hardy that it has survived its lack of cultivation and natural disadvantages since the centuries before the Incas, has been taken up by the magician of the vegetable world and will be made an edible and highly prized article of commerce. Mr. Burbank has been working on the evolution process for a year and he thinks that he will eventually produce out of the South American wild potato the very finest potato the world has ever known.

As many of the old varieties of potatoes have gradually run out and lost their good qualities with constant cultivation, this new specimen may prove of value to farmers who contemplate cultivating the Irish potato.

ASKED TO RESIGN.

The Board of Commissioners of State Institutions met at Tallahassee on Monday and adopted a resolution requesting the resignation of the superintendent, Dr. V. H. Gwinn, and the physician, Dr. E. Christie, of the Florida Hospital for the Insane at Chattahoochee. This action was precipitated by disagreements which have developed between these two leading officials and it was deemed to be for best interests of the institution to ask for their resignations, to take effect upon the qualifications of their successors.

The board at the same time also elected Capt. B. F. Whitner of Sanford to be superintendent of the hospital, Dr. R. L. Goodbread of Mayo to be physician, and Dr. James H. Randolph of Tallahassee to be assistant physician. The assistant physician was provided owing to the largely increased number of patients now in the hospital.

The winter and early spring visitors still continue to come to Gainesville, many of whom are on their way to the North from the Southern part of Florida and Cuba. Some of them are compelled to stop here to recuperate after a season in the localities that are less favored than Gainesville for health. The pure air one enjoys at this point, the excellent water for drinking purposes and bathing, makes Gainesville a city much sought by invalids as well as those who would seek a few weeks of rest after touring in other portions of the State.

The Oklahoma farmers have a movement under way to combine all farmers under one trust. If they are not careful they will find that the legislation intended for the oil and the beef trust will hit them and miss the others.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

The enterprising citizens of Tampa deserve credit for their cleverness in buying the Tampa Bay Hotel property intact and selling it to a company that will run it in the future as a hotel. The Tampa Bay is the most substantially built and furnished of any resort hotel in Florida, and if the city of Tampa keeps on growing as it has in the past few years this hostelry will be needed right along the entire year to accommodate the first-class trade of that city.

Republican editors will never forgive Governor Folk of Missouri for redeeming his campaign pledges. This is something unheard of in Republican circles, where "promises" are merely made to "get in on" and then to be forgotten.

EPAULETS.

Originally Intended as a Protection From Sword Cuts.

It is probable that the epaulet was originally intended as a protection to the shoulder from sword cuts rather than as an ornament. Ever since 1795 they have been worn by commissioned officers of the British navy. According to the officer's rank they vary in design. A sublieutenant wears only one composed of gold lace; other ranks two. The degree of rank is shown by crowns, anchors and stars worked in silver upon the epaulets and also by the thickness of the cord of which they are composed. Previous to the Crimean war epaulets were worn by both officers and men of the army. Here, as in the navy, distinction was shown both in their texture and design. Those of the officer were made of gold braid, while with the rank and file they were merely of worsted.—London Telegraph.

The King of Mollusks.

The king of mollusks lives in the Indian and south Pacific oceans. He attains to a weight of 500 pounds, and the shell is of the bivalve kind, and the shape is about the same as that of our common fresh water mussel. The gigantic tridacna is the largest mollusk known to have lived on the earth since the silurian age. It is found on the bottom of the shallow parts of the ocean, and the large individuals have no longer the power to move about. They lie on one side, and all about them the corals build up until King Tridacna is sometimes found in a well-like hole in the coral formation.—St. Nicholas.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

BISHOP WEED WILL PRESIDE

Cornerstone Will Be of Fine Georgia Creole Marble, Properly Inscribed. Building Will Be Credit to City and Congregation.

Great preparations are being made, and a great deal of interest is centered in the laying of the corner-stone of the elegant new stone edifice of Holy Trinity Church, which will be held in a few days.

The stone, which will be of the finest Georgia Creole marble, has been ordered by C. D. Schafer, the stonecutter, who will execute the inscription as follows: "Holy Trinity Church, 1905."

Naturally there will be a large attendance at these ceremonies, which will be conducted by Rt. Rev. Bishop Weed. It was desired to hold the ceremonies on Wednesday, the 22d inst., but there is a question of doubt as to whether the stone will be ready by that date. The function will be carried out as soon after the 22d as possible, due notice of which will be given in The Sun.

As has been said before, this building, when completed, will be one of the finest edifices in the State. The material used is brick and McCarrell stone, which is equally as handsome and durable as granite. The building will be a credit to the city and congregation.

SANTA FE HAPPENINGS.

School Closed on Account of Grippe. Other Notes of Interest.

Santa Fe, March 15.—Owing to the prevalence of la grippe, which has visited almost every family in the district, the public school has closed here, which event is greatly regretted by the patrons, as the term only lacked three weeks of being out. Miss Annie Price, the efficient teacher, has returned home and will wait until further on to finish the term.

J. H. Osteen of Willeford, a member of the county executive committee, accompanied by W. S. Osteen, Sr., with their wives and children, visited their brother, J. A. Osteen of Santa Fe, last week. They say that the West End was never in a more prosperous condition than now.

Owing to the continued dry weather in February and up to the 10th of this month, many farmers have lost their fences by the burning of the woods. Some of them have had a sad experience.

The rain, which was so much needed by the farmers, was hailed with joy for more than one reason. It put out the fire that was raging in the woods and gave moisture so as to enable planting to go on with great rapidity.

The watermelon growers have finished planting their crop. The potato crop is up and looking fine, with good stands. The growers are delighted with their prospects.

Miss Alma Blitch, who has been in the Central City for the past week, a guest of her sister, Mrs. J. M. Rivers, returned home Tuesday.

The farmers are busy now planting corn. The outlook is for a large acreage in corn and piudars this year. Cotton is being planted by some, but the bulk of the crop will be planted later on.

The circuit court being in session does not disturb this part of the county, as we are not allowed to sit on the jury from this distant section.

MOZLEY'S LEMON ELIXIR

REGULATES THE
LIVER,
STOMACH,
BOWELS,
KIDNEYS.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

MOZLEY'S LEMON ELIXIR.

NO EVIDENCE OF SUICIDE.

Result of Autopsy on Body of Mrs. Stanford Points to Murder.

Honolulu, March 15.—The Advertiser today will print an interview with Dr. Wood, who performed the autopsy on the body of Mrs. Stanford. He says that the presence of strychnine in the bottle of bicarbonate of soda refutes all of the theories of natural death.

The strychnine was a foreign substance, and it did not belong to the preparation of bicarbonate.

Dr. Wood declares that the poison was thoroughly mixed with bicarbonate of soda by some one who was thoroughly familiar with the strength and effect of strychnine, but he does not say that the strychnine was placed in the bottle with murderous intent. Regarding the efforts to account for symptoms on the theory of natural death; he said that he can make the ante-mortem symptoms or post mortem signs apply to prove that death was due to many causes.

GOODS STOLEN FROM CARS.

Southern Railway Has Lost Considerably by Gang of Robbers.

Charlotte, N. C., March 15.—The Southern railway has lost thousands of dollars recently on account of cars being broken open and robbed of merchandise in transit while the trains were yet in this city.

The police of the city succeded in locating and arresting two negroes, who are thought to be the leaders of the gang of thieves.

In the possession of one of these negroes, John Harris, was 48 quart bottles of corn whisky. Ernest Crawford, the other negro under arrest, had numerous articles concealed in his home that had been taken from cars passing through Charlotte.

It is conservatively estimated that the Southern has lost $50,000 by car thieves within the city limits of Charlotte since the first of last December.

Syrian Peddler Found Murdered.

Valdosta, Ga., March 15.—Following a bloody path from the main road into a swamp 100 yards, Hal Luke and Jim Greer found the beddy of a Syrian peddler who had been assassinated, evidently for the purpose of robbery. The tragedy occurred at Mud creek bridge, in the southeastern part of Berrien county. Suspicion is said to point to a white man. A deformity in a foot shows in the track which marked the scene of the crime. There is also said to be other evidence against him. The Syrian's goods were ransacked, but the assailant evidently was looking for money only.

Strikes Hidden Rocks.

When your ship of health strikes the hidden rocks of consumption, pneumonia, etc., you are lost if you do not get help from Dr. King's New Discovery for Consumption. J. W. McKinnon of Talladega Springs, Ala., writes: "I had been very ill with pneumonia, under the care of two doctors, but was getting no better, when I began to take Dr. King's New Discovery. The first dose gave relief, and one bottle cured me." Sure cure for bronchitis, coughs and colds. Guaranteed, at all drug stores. Price, 50c and $1. Trial bottle free.

TWO SUICIDES IN ATLANTA.

Man, Tired of Living—Death of the Woman a Mystery.

Atlanta, March 15.—John L. Dorsey, a blacksmith, aged 52 years, committed suicide Monday at noon, by shooting himself through the heart. The tragedy occurred in the saloon of I. J. Benson, 300 Marietta street, where the son of Dorsey tended bar. The pistol with which the unfortunate killed himself belonged to his son. It was a 32 caliber, Iver-Johnson revolver.

The body was removed to the undertaking establishment of Barcley & Brandon, where Coroner Thompson will hold an inquest.

Dorsey left a note saying that he was tired of life because his wife was in love with another man. He concluded the farewell letter with a statement denying that he was either insane or a drunkard. He is survived by a wife and five children.

With an empty chloroform bottle lying beneath her, and a similar unlabeled bottle on the table by her side, a woman, who was registered as the wife of A. L. Johnson, was found in a dying condition at the Maine hotel, on Walton street, Monday afternoon about 3 o'clock. At 7 o'clock in the evening she was dead.

Kentucky Sheriff in Jail.

London, Ky., March 11.—Ed Callahan, sheriff of Breathitt county, indicted with the Hargises on the charge of conspiring to kill James Cockrell, of whose cases the state court recently gave Fayette county jurisdiction, came here today and surrendered to the authorities and was taken at once to jail and incarcerated with the other prisoners from Breathitt. Callahan explained that he had not heard of the court's decision because he was away from home and ill. He said he came as soon as he knew he was wanted here. All of the Breathitt prisoners in the cases but one are now in jail here.

Railroader Commits Suicide.

Selma, Ala., March 15.—W. A. Gathwright, a former fireman on the Southern railway, committed suicide in a tragic manner, near Brown's Station. He saw the train approaching, and kneeling, placed his head on the rail, being ground to pieces. He is believed to have brooded over the misfortunes that have recently overtaken him.

Weak Stomach.

A weak stomach is most frequently caused by the overworked and exhausted nervous system.

The power that runs the stomach is the nerve force sent to it from the brain through the nerves. When the nerves are weak or exhausted the supply of energy is insufficient and the action of the stomach is impaired, and results in imperfect digestion—dyspepsia.

Dr. Miles' Restorative Nervine increases nerve force. It strengthens and builds up nerve tissue, gives vigor to the nerves and muscles of the stomach; this produces a healthy activity.

Nervine allays the inflammation, heals the membranes, and makes the stomach strong and healthy. There is nothing that so quickly gives energy to the whole system as Restorative Nervine.

"I can't say enough for Dr. Miles' Nervine. I don't know what it will do for others, but it certainly cured me of stomach trouble, and now I am as well as I ever was. Two physicians failed to relieve me, but in three or four days after taking Nervine I was much relieved. Four bottles made me a sound man, at the cost of $4.00."
JAMES E. HART, Detroit, Mich.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

A mad dog in Ybor City caused a panic, which was killed by a policeman. He probably shot at the dog.

The city of Tampa has sold the Tampa Bay Hotel property to a company of New York gentlemen for $140,000, clearing $15,000 on the deal.

In the Dade county circuit court Benajamin Cokely, colored, pleaded guilty to the charge of killing Rosa Roberts, an ebony hued female, and got life.

Alderman Van Sickle of St. Augustine was robbed of his $200 watch while in line at the postoffice to get his mail. Another argument in favor of free city delivery.

Mrs. M. Alvarez of Tampa used gasoline to clean a room and then lighted an oil stove in the room. An explosion followed and Mrs. Alvarez was badly burned.

The Pensacola Amusement Company has purchased the opera house in that city and will not build a new one, but will remodel the old one. A wise conclusion, as the old one is large enough.

The State Democratic Executive Committee will convene in Jacksonville March 23rd, when recommendations for a change in the State primary laws will be received and considered.

The Daily Florida Sun is now printed on its new press that turns out 20,000 eight-page papers an hour. With all the news of Florida and the telegraph news of the world, The Sun will surely be a success.

An Orlando man went fishing a few days ago, and after he had been fishing for a while discovered that the water was running into the boat at a lively rate through a large hole in the bottom. In a short time all the water in the lake had run into the boat, when he plugged up the hole and walked ashore.

The Confederate reunion at DeFuniak Springs on Saturday was a decided success, notwithstanding the inclement weather, there being in attendance about one hundred of "the old Vets" who were able to keep step to the strains of "Dixie," and to cheer most lustily every mention of the names of Confederate leaders.

His comrades of South Florida of the United Confederate Veterans have conferred upon General William H. Jewell of Orlando the office of Commander of the Third Florida Brigade of U. C. V., which command embraces nearly all the counties in South Florida. With this goes the rank of brigadier-general, an honor which General Jewell has held for over seven years now, his command refusing several times to accept his resignation.

AUTHORITIES ARE EXCITED.

Venezuelan Government Has Seized Cable Company's Property.

Willemstadt, Island of Curacao, March 15.—Advices received here from Caracas, Venezuela, announce that the hearing of the appeal of the New York and Bermuda Asphalt company against the sequestration of its property by the government of Venezuela, has been adjourned to make way for the action of the Venezuelan government against the French cable company.

It is alleged that President Castro has ordered the court to render judgment annulling the contract and authorizing the seizure of the cable company's property. The government has cut the coast cable east and west of LaGuayra to prevent communication with the revolutionists who are active at Trinidad. The authorities at Caracas are excited.

New York, March 15.—Mr. Laurienne the manager of the French cable company, said today that action against his company had begun in Venezuela as indicated in the above dispatch. He said, however, that his information did not confirm the allegation that President Castro had brought pressure up in the court in this matter.

Gives Health, Vigor and Tone.

Herbine is a boon for sufferers from anaemia. By its use the blood is quickly regenerated and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shirel, Middlesborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50 cents. Sold by W. M. Johnson.

Breaking of Lever Kills Boy.

Tallapoosa, Ga., March 15.—Joseph Brittain, 14 years old, was instantly killed here Monday. Several men were engaged in moving a house, which had been brought a long distance, and was within two feet of its new location when the long lever suddenly broke at the point of intersection in the capstan, the end striking the boy squarely on the head, smashing his skull and bespattering the ground with his brains. Another boy, his companion, narrowly escaped the same fate.

The Colonel's Waterloo.

Col. John M. Fuller of Honey Grove, Texas, nearly met his Waterloo from liver and kidney trouble. In a recent letter he says: "I was nearly dead of these complaints, and although I tried my family doctor he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure dyspepsia, biliousness and kidney disease by all druggists, at 50c a bottle.

TRAFFIC CONDITIONS IMPROVED

Old Employes Return to Work at a Reduction in Wages.

New York, March 15.—The traffic conditions on the elevated railroad and subway today were slightly improved over those of yesterday. No more trains were run, but a little better speed was maintained. All the employes of the Interborough company who went on a strike and whose wages had been previously advanced because or the length of their service, secured re-employment only, at the sacrifice of whatever advance in wages they had obtained.

Experienced motormen were reduced from $3.50 to $3 a day, gatemen from $1.55 to $1.40, guards from $1.90 to $1.75, and conductors from $2.40 to $2.10.

So crushed was the strike spirit that the men accepted the reductions without protest. Many expressed regret that they had joined in the strike and told the officers that they had done so from fear.

Jefferson Davis' Agent Dies.

Highland Falls, N. Y., March 15.—Colonel Caleb Huse, a veteran of the confederacy, died here, after a surgical operation. He was Seventy five years old. Colonel Huse was graduated from the United States Military academy in 1851 and was for many years an instructor at West Point. He resigned from the union army in 1861 and was commissioned by Jefferson Davis as purchasing agent in Europe for the Confederate army. He remained abroad in that capacity until the end of hostilities. He is survived by his wife, three sons and five daughters.

Senator Mitchell Ready For Trial.

Portland, Ore., March 15.—Senator Mitchell, who has just returned from Washington, is anxious to have his trial occur as soon as possible. "I am entirely and absolutely innocent of any wrong. I have violated no obligation or duty devolving upon me as a senator, I have done nothing that was not my right to do legally. Conscientious of my innocence, I have nothing to fear from the outcome of the trial of my case, provided I have a fair and honest trial, and that my case is not prejudiced before the people of the state who are to judge me."

Incredible Brutality.

It would have been incredible brutality if Charles F. Lemberger of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at all drug stores.

DETECTIVE STORIES.

The Literary Weakness In the Novel of Crime and Detection.

I know of one good reason, and only one, which really prevents detective stories standing among the noblest forms of art. Most of the objections raised against them by the vague minded world of modern culture (probably the most vague minded world that has ever existed) are quite narrow and childish. To say that the detective tale is sensational is simply to say that it is full of feeling or is aesthetic. Aesthetic is the Greek for sensational. Sensational is the Latin for aesthetic. To say that the thrill which it gives is connected with bald and positive sin, with bald and positive death and not with any of the fine spun drawing room emotions which it is now the fashion to consider "deep," is to pay it a high compliment.

The Bible is concerned with these great plain sins and judgments. So are the great Greek dramas, so are the tragedies of the Elizabethans, so are the old ballads, and so are all men anywhere who live lives sufficiently real to have ever seen the great plain sins and judgments.

There is one good argument, as I have said, and one only, against the police mystery, and that is that police mysteries exist to destroy mystery when they have created it. A sad tale should be saddest when we finish it; a happy tale should be happiest when we finish it; a stirring tale should be most stirring at the end, a fantastic tale most fantastic at the end. But this kind of mysterious tale is not most mysterious at the end. It is then least mysterious, or, rather, not mysterious at all. Instead of making a commonplace thing mystical (the aim of all good art) the detective reverses the process and makes a mystical thing commonplace. And from this comes that one fatal weakness in the sensational novel of crime and detection, the one thing that does separate it, I am afraid, from great fiction, the fact that there is no impulse to read it again. A detective tale we have read is an empty bottle of wine, an exploded shell, a thing destroyed. The mystery of the sanity of Hamlet is alive and kicking still.—G. K. Chesterton in London News.

THE USE OF JEWELRY.

It Is Something More Than a Love of Pretty Trifles.

Even in its modern form when ornament has been left almost wholly to women it is something more than a love of pretty trifles. On the persons of the female members of his family the man loves to see the display of the wealth which in these days is power, and, if modern taste will not allow it in himself, it is still indulgent to his vicarious display of it through his women. So far as women themselves consciously aid and abet in this assertion of power, so far they may claim to be acquitted from the charge of sheer vanity. Women of families who have become recently rich love most to display their jewelry, and it may be there is not so much vanity as assertion in it of their claim in virtue of wealth to be respected and honored. Those women who have undisputed claims to distinction exercise more discretion, and their chief displays are on those occasions when it is congruous to emphasize their social power and influence. Thus to the end we have the close connection between ornament and money which has existed from the beginning.—London Saturday Review.

FIGHTING OXEN.

The Hottentots Trained Cattle to Charge Riderless Into Battle.

When the Dutch first settled at the Cape they found that the original Hottentots owned large herds of cattle, which they regularly rode and trained to act as guardians of their other cattle and their camps. So admirably were these animals trained that they used to charge before the tribesmen in battle, apparently without riders, though there may have been mounted leaders.

An old writer named Kolben says: "Every Hottentot army is provided with a large troop of these war oxen, which permit themselves to be governed without trouble and which their leaders let loose at the appointed moment. The instant they are set free they throw themselves with impetuosity upon the opposite army. They strike with their horns, they kick, they rip up and trample beneath their feet all that opposes them. They plunge with fury into the midst of the ranks and thus prepare an easy victory. The manner in which these oxen are trained and disciplined certainly does great honor to the talent of this people."

The Coffee Plant's Friend.

In the republic of Colombia there is a tree highly esteemed as a shade for the coffee plant. It is found also in tropical Brazil and possesses qualities that make it peculiarly suited for this particular use. It will live on a stony, poor soil, and a tree only eighteen months old will shade 144 square yards of ground, while, when full grown, it may be fifty feet high and have a spread of fifty feet on every side.

Among the visitors to this city yesterday was W. Madison Blitch of Santa Fe, one of the most progressive citizens of that section. Mr. Blitch was a guest of his daughter, Mrs. J. M. Rivers.

Captain Simmons, the founder and original owner of the Royal phosphate plant near High Springs, was a visitor to the city yesterday. The deposit of this mine having become exhausted, Captain Simmons is now operating near Ft. White.

Dr. Schlater of Micanopy was in the city yesterday. He is interested with J. N. Craig in the trucking business, and states that all vegetation is looking fine and that shipments will begin in a few days. Schlater & Craig have about ten acres in cultivation, diversified crops.

J. B. McDonald has decided to open a real estate business, and has rented an office in the Williams Block, West Main street, N., with W. E. Dow. Messrs. McDonald and Dow have furnished their offices in a neat and modern manner, and will be glad to have their friends call and make themselves at home.

J. W. Martin, the clever traveling representative of the P. Hayden Saddlery Company, St. Louis, is at the Brown House. Mr. Martin, who is regarded as one of the most successful salesmen on the road, recently relinquished his positson with M. Frank & Son, Savannah, for that which he is now holding.

Mrs. Joseph A. Ettel has returned from a pleasant visit to Havana, Cuba, where she was the guest of Mr. and Mrs. M. W. Wooding. She was charmed with that great city, as well as delighted to be with her old Gainesville friends in Cuba. The numerous friends of Mrs. Ettel are glad to see her home again, as she is a great social favorite here.

"It do pay" to advertise. That's the conclusion of M. B. Saunders, who advertised in Sunday's daily and Monday's weekly Sun a tract of land on Levy Lake for sale. Mr. Saunders states that he has already received a number of inquiries, which he feels positive will result in a sale. The land in question is known as the Flewellen place, and is among the most desirable properties in this section of the State.

Dr. W. H. Miller, a prominent physician of Inverness, arrived in the city yesterday, and last night had conferred upon him by Pilgrim Commandery, Knights Templar, the Templar degree. At the conclusion of the meeting the lodge participated in an oyster supper, which it is needless to add was greatly enjoyed. The lodge was also inspected by the grand captain-general of the order, who found the lodge in excellent condition.

Friends of J. F. Bunch are glad to see him out again, after several days' confinement in bed. Mr. Bunch had the misfortune to fall Saturday evening, painfully spraining his back, from which he was incapacitated for duty.

Wm. Anderson has returned from the West End, where for the past few days he has been engaged in constructing a telephone line from Clark to Dutton for the Central Phosphate Company. The instruments have been installed and the system is working nicely.

After a visit of about ten days to her brother, Albert Weber, North Gainesville, Miss Martha Weber of Port Chester, N. Y., has gone to Ocala. After a brief stay there she will take the delightful Ocklawaha trip, which is said to be among the most weird, as well as the most romantic trips of the kind in the world.

D. M. Dean, an extensive naval stores operator of the East Coast was has become deeply interested in Gainesville, purchased valuable property and moved his family here, is spending a short time with them. Mr. Dean has confidence in Gainesville, and says it is the cleanest and most moral city he has ever seen.

Mrs. R. C. Cooley of Jacksonville, the much beloved ex-president and co-worker in the U. D. C. Division of Florida, who has been the guest of Mrs. C. A. Colclough for the past week, took her departure yesterday, much to the regret of her many friends here who are always glad to welcome her and sorry to see her depart. Mrs. Cooley is perhaps the best woman parliamentarian in the State, having published a manual on parliamentary law which has already a large circulation.

The Gainesville Gas and Electric Power Co., with a desire to extend to the people of Gainesville as far as possible the benefit of its conveniences, is extending the main from the residence of Col. Morrow, East Church street, to the home of H. E. Taylor, corner East Seminary and Franklin streets, a distance of two blocks. This will afford those residing along the route an opportunity to enjoy gas privileges. The company is now giving a first-class service in both the gas and electric departments.

READ THIS.

Lexington, Tenn., June 5, 1901.

This is to certify that about March last I suffered intensely with my back and kidneys. Just prior to this I had undergone treatment for bladder trouble and was relieved, except the treatment was followed by the above trouble. It was recommended that I try "Texas Wonder, Hall's Great Discovery." I took one dose on retiring at night, and to my agreeable astonishment, I found myself relieved. One dose did the work. There is no bosh about this. It is wonderful.

Respectfully,
C. R. Scott,
Proprietor Scott House, formerly county chief clerk, postmaster, etc.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. A Lucky Find.

Wednesday afternoon Wm. Anderson picked up from the floor of the waiting room at the Atlantic Coast Line depot a crisp $10 bill. He reported the matter to Ticket Agent Goodwin, and while they were talking the matter over a telegram from Hague was handed Mr. Goodwin bearing the information that a young lady had lost the money and asking him to try to find it in the waiting-room, as she remembered having it there. Mr. Anderson naturally delivered the money to the keeping of a relative of the young lady here, and it will be safely returned to her. It was a lucky find—for the owner.

RUSSIAN RETREAT STREWN WITH DEAD

Japanese Capture Many Men and Valuable Stores.

KUROPATKIN AGAIN REPORTS

He Says Japanese Army Is Being Constantly Re-enforced—Russian Soldiers Are Disheartened and Surrender in Squads to Mikado's Men.

Tokio, March 14.—11 a. m.—A telegram received today from headquarters in the field, says:

"In th edirection of Singchin our forces have been dislodging the enemy in Yingpao 18 miles from Fushun, and on March 11 occupied the place.

"In the direction of Singchin our all of our forces are continuing the pursuit of the remnant of the enemy and many Russian officers and men are surrendering to our train guards in the mountainous districts east of the Tie Pass road.

Additional spoils taken in the direction of the Shakhe river are wagons and carts captured southeast of Chilulikoutzu. They exceeded 1,000 loaded with gun and ammunition, small ammunition, entrenching tools, telegraph and telephone equipment, pontoon material, supplies, and water boilers.

They also carried 14 eight-centimeter, 1,400 fifteen-centimeter shells and 1,200,000 small ammunition, and various military supplies.

In the direction of Singchin the spoils included 120,000 small ammunition, 800 shells and 3,000 entrenching tools.

Russians Surrender in Squads.

General Kuroki's Headquarters in the field, via Fusan, March 14.—The country is swarming with hungry, disheartened Russians, who are surrendering in squads to any pursuing Japanese they meet. The Japanese officers have refused to criticise the lack of mobility displayed while driving the Russians through Tie pass.

Most of the foreign attaches with the Russian army, including two American and English officers were captured at Mukden.

10,000 Russians Killed.

Japanese Left Armies, March 8, via Yin Kow, March 13.—(Delayed in Transmission.)—From noon until darkness yesterday the left column from General Oku's army fought a desperate fight near Likempu, 7 miles north of the Hun river, and 8 miles west of the railway. The Russian forces outnumbered the Japanese 3 to 1. The Russians, who had been heavily re-enforced in the south, rushed out of their trenches to meet the advancing Japanese and a fierce hand-to-hand fight ensued, the soldiers using their bayonets and the officers their swords. The Russian casualties were over 10,000 killed and wounded and the Japanese a little over 3,000. The Russians dead were left on the field in heaps among the many staff officers.

Report from Gen. Kuropatkin.

St. Petersburg, March 15.—General Kuropatkin in a dispatch dated March 13 says he has received no further report of any fighting between organized bodies of troops and announces that the Japanese are making reconnaisances.

In a dispatch filed the previous day the Russian commander in chief, notified the emperor that General Meyendorff fell from his horse March 10 and fractured his collar bone. He was taken to Harbin and his early recovery is hoped for.

Denies Recall of Squadron.

St. Petersburg, March 15.—A semi-official denial was given out here today for the reported recall of the Russian second Pacific squadron.

Big Sale of Coal Lands.

Birmingham, Ala., March 15.—A deal has been closed whereby ex-Governor E. E. Jackson, of Maryland, disposes of 28,000 acres of coal lands on the Ensley Southern railroad to the president of the Alabama Coal company of this city, for $500,000.

SENATOR TELLER IS OPPOSED TO TREATY

Wants Senate to Consider It In Open Session.

MONEY FOR CONSCIENCE FUND.

Senate Committee on Interstate Commerce Will Begin Its Meetings April 17 to Consider Question of Freight Rates.

Washington, March 15.—When the Santo Domingo treaty was taken up in executive session of the senate today Senator Teller again made a plea for an open session for the discussion of the law points which he said were involved in the treaty. The senate committee on foreign relations were complimented by Senator Teller for the efforts it had made to satisfactorily amend the treaty and he declared that the convention with perhaps one or two additional amendments had been put in the best position.

"But," he said, "it is impossible to amend the treaty so that it will satisfy me. I am opposed to it for fundamental and basic reasons. He declared that the policy to be embarked upon under the treaty was contrary to our form of government and a dangerous precedent to establish.

Objection was made by Senator Foraker to opening the doors. After this question had been disposed of for the second time, Senator Morgan took the floor and discussed the Dominican debt for the purpose of showing that it was largely made up of fraudulent claims. He talked also of the revenues of the government and used as a basis the data which he recently presented to the senate and which was printed as a senate document.

Chairman Elkins, of the senate committee will begin hearings on the railway rates subject Monday, April 17.

No quorum appeared today when the committee was called, but Senator Elkins ascertained the views of the members of the committee and fixed the date.

The absence of a quorum was suggested by Mr. Gallinger, when the senate convened at 11 a. m. today. The roll was called and after some delay 44 senators, a quorum, responded to their names.

At 11:14, on motion of Mr. Cullom, the senate went into executive session.

Secretary of Treasury Shaw today received the following communication:

"Dear Sir—I am sending you herewith enclosed $12,000 which is to go to the use of the United States government. Years ago I defrauded the government of money, but have returned it all, and now am paying four-fold in accordance with the teaching of Scripture. The way of the transgressor is hard, and no one but God knows how I have suffered the consequences, and I would seek to do a bountiful restoration. May God pardon me, while the United States government is benefited. (Signed) A Sinner."

The amount, which was in currency, has been deposited in the treasury to the credit of the conscience fund.

Sultan's Officers Flee for Life.

Constantinople, March 15.—Another palace intrigue, so common in the sultan's entourage has just come to light involving a trio of high Ottoman officials, Generals Ahmet Pasha and Riza Pasha, aides-de-camp of the sultan and Aref Bey, his majesty's chamberlain. It is said that the three officials fled abroad to escape the machinations of a secret police cabal at the Yildiz kiosk, who were said to be bent on their destruction. Riza Pasha was recently attacked and wounded in the abdomen. The assault is alleged to have been at the instigation of the chief of the secret police.

Aged Woman Dies of Fright.

New York, March 15.—Mrs. John Fletcher, 69 years old, is dead from fright at her home in Lakewood, N. J. Her grandson had set fire to a brush heap in the front yard, and Mrs. Fletcher, fearing it would spread to the house, hurried out with a pail of water. A puff of flame caught the bottom of her dress and she fell dead with a scream of terror.

CORNER-STONE OF HOLY TRINITY

Will Be Laid in a Few Days With Most Imposing Ceremonies.

BISHOP WEED WILL PRESIDE

Cornerstone Will Be of Fine Georgia Creole Marble, Properly Inscribed. Building Will Be Credit to City and Congregation.

Great preparations are being made, and a great deal of interest is centered in the laying of the corner-stone of the elegant new stone edifice of Holy Trinity Church, which will be held in a few days.

The stone, which will be of the finest Georgia Creole marble, has been ordered by C. D. Schafer, the stonecutter, who will execute the inscription as follows: "Holy Trinity Church, 1905."

Naturally there will be a large attendance at these ceremonies, which will be conducted by Rt. Rev. Bishop Weed. It was desired to hold the ceremonies on Wednesday, the 22d inst., but there is a question of doubt as to whether the stone will be ready by that date. The function will be carried out as soon after the 22d as possible, due notice of which will be given in The Sun.

As has been said before, this building, when completed, will be one of the finest edifices in the State. The material used is brick and McCarrell stone, which is equally as handsome and durable as granite. The building will be a credit to the city and congregation.

SANTA FE HAPPENINGS.

School Closed on Account of Grippe. Other Notes of Interest.

Santa Fe, March 15.—Owing to the prevalence of la grippe, which has visited almost every family in the district, the public school has closed here, which event is greatly regretted by the patrons, as the term only lacked three weeks of being out. Miss Annie Price, the efficient teacher, has returned home and will wait until further on to finish the term.

J. H. Osteen of Willeford, a member of the county executive committee, accompanied by W. S. Osteen, Sr., with their wives and children, visited their brother, J. A. Osteen of Santa Fe, last week. They say that the West End was never in a more prosperous condition than now.

Owing to the continued dry weather in February and up to the 10th of this month, many farmers have lost their fences by the burning of the woods. Some of them have had a sad experience.

The rain, which was so much needed by the farmers, was hailed with joy for more than one reason. It put out the fire that was raging in the woods and gave moisture so as to enable planting to go on with great rapidity.

The watermelon growers have finished planting their crop. The potato crop is up and looking fine, with good stands. The growers are delighted with their prospects.

Miss Alma Elitch, who has been in the Central City for the past week, a guest of her sister, Mrs. J. M. Rivers, returned home Tuesday.

The farmers are busy now planting corn. The outlook is for a large acreage in corn and plodars this year. Cotton is being planted by some, but the bulk of the crop will be planted later on.

The circuit court being in session does not disturb this part of the county, as we are not allowed to sit on the jury from this distant section.

Fire In Big Printing Office.

Chicago, March 15.—Fire destroyed the printing and box department of of the Grand Crossing Tack company's plant at Seventy-ninth street and Cottage Chicago avenue. The loss is $150,000. The entire plant, valued at $1,000,000, employed 800 men. At the first sheet of fire there was panic among the women and girls on the upper floors but the firemen and superintendents throughout the plant got employes out without loss of life. Scores of children are employed at the plant.

TWENTY LIVES LOST IN TENEMENT FIRE

Heroic Work of Firemen and Policemen Save Many.

40 OTHERS SERIOUSLY INJURED

New York City Is the Scene of a Terrible Calamity—Explosion of a Kerosene Lamp Starts Awful Blaze Which Resulted Fatally.

New York, March 15.—At least a score of persons were burned to death, several were so badly hurt that they may die and 40 others received slight hurts in a fire that practically destroyed a five story tenement house in Allen street early today. The fire had gained great headway before it became known to most of the tenants, and many of them were cut off before they could make an attempt to save themselves. Thrilling rescues and daring leaps for life marked the fire. Scores were carried from the blazing building. Firemen with scaling ladders braved the flames and reached the imperiled tenants. Those so far recovered only the following have been identified:

Rachel Solomon.
Jacob Solomon.
Abraham Solomon.
Isaac Solomon.
Jessie Cohen.
Rose Wiener.
Sander Wiener.
Ida Muskowitz.
Harry Kauffman.
Rose Miller.
Morris Miller.

Crowded fire escapes in the rear of the tenant house were largely responsible for so many deaths and injuries among its population, which approached 200 souls.

The scenes about the building after the fire was over and when the search for the dead was begun were heart-rending. Nothing so pitiful has been seen in New York city since the Slocum disaster, when 1,000 people lost their lives.

The fire started in the basement, occupied by Isaac Davis, his wife and three children. Davis had been out last night and returning to his home early this morning went into his store on the same floor just in time to see a kerosene lamp in the rear explode. He awoke his wife and both tried to put out the flaming lamp but without success and then gave all their attention to getting their children out of the burning building. A policeman who heard the cry of alarm rushed to the scene and an effort was made to arouse the sleeping persons in the house.

In the meantime the flames had spread with startling rapidity and when the persons who had been asleep on the upper floors awoke they found themselves confronted by a wall of flames on nearly every side. Scenes of the wildest description followed with the panic stricken people rushing for the fire escapes only to find them littered with rubbish of all descriptions and almost impassable.

Down through this cluttered narrow passage way fled a stream of humanity. On some of the escapes the rubbish was so closely packed that it became impossible to pass certain points and men, women and children stood literally roasting to death as the flames roared through windows around them.

One County Worth $200,000,000.

New York, March 15.—The state and county taxes in Westchester, which are to be apportioned by the supervisors will show an assessment on $200,000,000 worth of property, and Westchester people will pay $150,043.67 in taxes, which is more than is collected in the state of Nevada. The great estates of the Rockefellers and other millionaires are the cause of the great assessments.

Gaynor-Greene Case Postponed.

Montreal, March 15.—At the request of the attorneys of Messrs. Gaynor and Greene, whose extradition the United States authorities are endeavoring to effect, their case has been postponed until March 22, when, it is said, it will positively be taken up.

JURY HUNG ON MURDER TRIAL

Verdict in Chamberlain Murder Case Not Reached Last Night.

FATE WILL BE KNOWN TODAY

An Endless Chain of Witnesses Were Examined by Both State and Defense, and Case Was Delivered for Consideration of Jury in Late Afternoon.

After completing the examination of the numerous witnesses in the famous case of the State vs. Fletcher Watson, charged with the murder of Garrett V. Chamberlain, and the argument of counsel on same, the case was delivered to the jury Wednesday afternoon about 5:45 o'clock.

Attorney C. C. Thomas opened for the State. He was followed by Attorneys Syd L. Carter and W. E. Baker for the defense, when State's Attorney Benj. P. Calhoun closed for the State. Attorney Baker, who settled here less than a year ago and established his practice, spoke for nearly two hours, and his argument in behalf of the defendant was a most earnest one. Although a young man, Mr. Baker is one of the most impressive speakers to a jury heard in this court room for some time, and it is a foregone conclusion among the "older heads" that he will yet make his mark.

The court adjourned for supper and reconvened at 8 o'clock. At 9 o'clock no verdict had been reached, when the court adjourned until 9 o'clock this morning.

The court convened at 9 o'clock Thursday morning. The jury came into court and reported that they could reach no agreement, when they were returned to the jury room by order of the court, with the hope that an agreement could be arrived at without continuing the case for another trial. At the hour of going to press (10 o'clock a. m.) no verdict had been rendered.

CONFERENCE MEETING.

Reports From Methodist Church Departments Were Encouraging.

A meeting of the Church Conference of Kavanaugh Methodist Church was held on Sunday morning last, after the regular service, at which the reports of the pastor, Rev. T. J. Nixon, the Sunday school, the Junior Epworth League, the Woman's Home and Foreign Missionary societies and other departments of the church were read and received.

These reports were encouraging indeed, and showed every department of the church in a most healthy condition.

It was decided in future to hold the conference on the second Sabbath morning of each month.

Rev. T. J. Nixon acted as chairman and H. L. Phifer secretary.

EAST FLORIDA NORMAL.

Opened Monday With Fair Attendance. More to Come Later.

The East Florida Seminary Normal opened on Monday with an attendance of about twenty teachers from various sections of the county, which was quite satisfactory, in view of the fact that the majority of the school terms have not closed. As these schools close it is expected the enrollment will increase, and before a great while the normal will be in a healthy condition.

Prof. Pound anticipates a most successful term. Students at the normal may enjoy the privilege of the regular Seminary courses without the cadet regulations. The Professor will be glad to furnish any further information desired.

Colored Politicians.

One of the most largely attended and most enthusiastic meetings among the colored people ever held in this city convened at Johnson's Hall, North Pleasant street, Monday evening, when the following municipal ticket was nominated:

For mayor, W. R. Thomas; for marshal, H. A. Reeker; for assessor, William Bradford; for aldermen, A. M. Cushman, W. B. Taylor, L. C. Lynch and J. B. Padgett.

FLETCHER WATSON ON TRIAL FOR LIFE

This Famous Case Was Called in Circuit Court Monday.

JURY WAS EASILY SECURED

Only Half a Day Required to Complete and Swear in the Jury, and in Afternoon Evidence Was Taken—Several Witnesses Are Summoned.

From Tuesday's Daily Sun.

The first day of the fourth week of the circuit court of the Eighth Judicial Circuit for Alachua county convened at 9 o'clock Monday morning, His Honor Judge Wills presiding. The officials looked fresh from the rest of the last three days of the preceding week, and it was evident that they had assembled to get down to business.

The case of the State of Florida vs. Fletcher Watson, charged with the murder of Garrett Chamberlain, was called, and the matter of the selection of a jury began. After spending the morning in this procedure, the following jury was selected:

J. C. Blitch, Lucius Hall, J. W. Dell, George Kitler, H. L. Beville, J. A. McKinstry, H. J. Baily, P. Y. Smith, J. L. DeLoach, J. B. Warren, L. E. Means, J. M. Cox. E. A. Osteen was appointed by the court as bailiff.

At the afternoon session the case was begun, and during the session six witnesses were examined. This case will probably require three or four days, possibly, as there are a large number of witnesses to be examined. The matter will be sifted to the bottom and every mite of evidence brought out, as the victim of this cowardly murder was one of Alachua county's most prominent young men.

The State is represented by State's Attorney Calhoun, B. A. Thrasher and C. C. Thomas, while Attorneys Carter and Baker appear for the defense.

At 5 o'clock the court adjourned until 9 o'clock this morning.

THE CIRCUIT COURT.

Case of Fletcher Watson Occupied Time of Court Tuesday.

From Wednesday's Daily Sun.

The trial of Fletcher Watson, charged with the murder of Garrett V. Chamberlain, occupied the entire time of the circuit court Tuesday. About fifteen witnesses were examined by the State and defense.

Witnesses for the defense testified that Watson was far away from the scene of the killing at the hour the murder was alleged to have taken place.

The jury heard the evidence with the greatest interest. Eight witnesses are yet to be examined, when the case will be argued before the jury. It is believed that the case will not occupy a longer time than today, when it will be turned over to the jury for a decision.

RESOLUTION OF THANKS.

Fifth District Knights Appreciate Courtesies of Seaboard.

The following resolution of thanks has been issued by the representatives of Fifth District, Knights of Pythias, to the Grand Lodge in Tallahassee:

"Tallahassee, Fla., March 10, 1905.

"Resolved, That the thanks of the representatives of the Fifth District, Knights of Pythias, of the Grand Domain of Florida, be, and are hereby tendered to the Seaboard Air Line Railway, for their kindness in furnishing us, without extra charge, a special coach from Gainesville to Tallahassee; to Mr. E. The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

DELAND WAS PLEASED WITH CUBA

He Believes That is the Coming Country for Young Men.

THE POSSIBILITIES ARE GREAT

Eastern Cuba Possesses Some of the Finest Stock Grazing Ranges in the World—Health and Climate All One Could Ask.

C. E. DeLand, who has just returned from Eastern Cuba, where he has been for the past four months on the Hato Nueva ranch of Steenburg & Moseley, is well pleased with that country and declares it is the coming country for the young man with plenty of energy and little capital.

The ranch upon which Mr. DeLand has been located was owned by A. O. Steenburg of this city, and Rev. H. R. Moseley of Jiguani, Province of Santiago, a Baptist missionary for Eastern Cuba, but Mr. Steenburg recently disposed of his interests to Mr. Moseley. The ranch comprised 4,000 acres, 2,500 of which were leased. Upon the ranch are six hundred head of Florida, Texas and native cattle which are in excellent condition.

"Hato Nueva range is located near Jiguani, Province of Santiago, in the heart of the finest stock raising section in Eastern Cuba," remarked Mr. DeLand, "and cattle thrive well there. The principal grass is the Pauma and Guinea. The former grows about three feet in heighth, while the Guinea, which resembles very much the broom sage of this country, will reach an average heighth of seven or eight feet. This grass is very nutritious, and cattle will eat it to the ground. Cattle thrive and fatten rapidly on this grass, and usually the meat is sweet and tender."

While in Cuba Mr. DeLand made several visits to Santiago. He had the satisfaction of climbing the famous San Juan Hill, and also visited Morro Castle and Fort Barrancas. He returned to the United States via Havana, and while there visited the spot where Christopher Columbus was entombed, as well as many other places of interest. He was located 460 miles east of Havana.

THE CHAUTAUQUA.

A Day of Elocution—Last Program of the Assembly.

From Tuesday's Daily Sun.

The program at the Tabernacle for Monday afternoon was one of the best of the session in point of literary ability, being an address by Geo. F. Bible, A. M., principal of the National School of Elocution and Oratory, Philadelphia. The subject of his address was "Life and Its Opportunity, or the Elements of Success." His remarks were full of interest to the young ladies and young men, and showed that character building was foremost in starting in life. He is a pleasing speaker and makes impressive what he affirms, possessing a brilliant and unassuming humor that is refreshing.

Evening Program.

The rain kept many at home in the evening, although the program was a pleasing one. Prof. Bible gave readings from Shakespeare, and his representation of "Shylock" from "The Merchant of Venice" was excellent. His readings were also highly appreciated. Misses Mitchell and Miller each appeared again in readings and were heartily applauded. Both acquitted themselves in a highly satisfactory manner, the applause being about equally divided.

Strikes Hidden Rocks.

When your ship of health strikes the hidden rocks of consumption, pneumonia, etc., you are lost if you do not get help from Dr. King's New Discovery for Consumption. J. W. McKinnon of Talladega Springs, Ala., writes: "I had been very ill with pneumonia, under the care of two doctors, but was getting no better, when I began to take Dr. King's New Discovery. The first dose gave relief, and one bottle cured me." Sure cure for bronchitis, coughs and colds. Guaranteed, at all drug stores. Price, 50c and $1. Trial bottle free.

HAD TO HIDE IT

A mother wrote us recently that she had to keep Scott's Emulsion under lock and key—her children used to drink it whenever her back was turned. Strange that children should like something that is so good for them. It's usually the other way. Scott's Emulsion makes children comfortable, makes them fat and rosy-cheeked. Perhaps that's why they like it so much—they know it makes them feel good.

ALL WELL PLEASED.

Pennsylvania Ladies Like Gainesville, May Prolong Visit.

Mrs. T. H. Rosboro and her charming daughter, Miss Nellie, who have been sojourning at the Brown House for the past week, have become very much impressed with the city and its people. These ladies are from Uniontown, Pa., where lots of good, clever people come from, and they are no exception. Possessed with most amiable and entertaining dispositions, they have made many friends here who will be delighted to know that they are so well pleased, and that they are seriously considering remaining here until May 1.

When the ladies arrived here they were accompanied by Mr. Rosboro, who is a prominent citizen and business man of Uniontown. On account of pressing business he was compelled to return to his Northern home, leaving his wife and daughter here.

There are annually quite a little colony of Uniontown people who visit Gainesville, and the influence of these is such that they bring new comers every season. Such friends as Commodore Beall, Dr. Herzog and others of the party are worth many times the value of booklets, since they wield a personal influence which it would be impossible to accomplish by printed matter, however alluring and attractive.

A HIGH COMPLIMENT.

W. E. Crozier Receives Prize for Excellent Work in Organizing.

W. E. Crozier of this city, organizer for the Modern Workmen of the World, is in receipt of a letter from headquarters in Washington containing a check which is the premium for excellency of work in establishing lodges of this order. It is a high compliment when it is learned that Mr. Crozier succeeded in organizing in Florida more lodges for the past year than any other representative of the order in the United States.

The Modern Workmen is a fraternal and benevolent order, and is rapidly growing in this State through the efforts of Mr. Crozier.

Incredible Brutality.

It would have been incredible brutality if Charles F. Lemberger of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at all drug stores.

Old Residents Here.

Among the visitors to this city are Mr. and Mrs. J. R. Crawford of Dothan, Ala., who are here as guests of the former's brothers, C. Y. and John L. Crawford. This estimable couple resided in Gainesville for several years, Mr. Crawford having conducted a meat market here. Having disposed of his interests in 1888 he removed to Dothan, where he has since resided. He is one of the stockholders of the Dothan National Bank, and for several years was the president of that institution. Friends of Mr. and Mrs Crawford are glad to greet them again.

Mr. Crawford expressed himself as being greatly pleased and surprised at the rapid development of Gainesville, which was almost beyond his comprehension.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

MR. MOYERS RETURNS.

After Several Months' Absence Will Again Take up Home in Florida.

On Sunday the 12th Geo. W. Moyers arrived via the S. A. L. from various points in Virginia, Washington, Philadelphia, New Jersey and Georgia, after an absence of several months. He has had quite an experience in the snowy regions, and did not see a day from December 10, 1904, to March 9, 1905, but that he could see snow on the ground—thermometer often at zero, but came through all without a flaw and feels equal to anything Florida can offer as a summer offset.

While away Mr. Moyers took in the "inauguration" of our strenuous "Teddy," and from the number of Indian and Republican clubs he saw in the parade, which took exactly four hours to pass a given point, he feels thoroughly convinced that the country has gone to the everlasting bow-wows, beyond the hope of any redemption.

With Mr. Moyers came his cousin, Jas. G. Kennedy of Green county, Virginia, an old Dominion farmer, who has come South for the first time to get thawed out. He will be the guest of Mr. Moyers while here and will endeavor to acquaint himself with the methods of our truck farmers, and if he succeeds in "catching on" may decide to locate among us.

LETTUCE MOVEMENT BEGINS

Shipments Along G. & G. Have Begun. Will be Heavy Soon.

Truckers from points on the Gainesville and Gulf railway visiting this city state that the movement of spring lettuce has begun, and that the growers are receiving good prices. The movement is light so far, but the next two weeks promise as heavy shipments as have ever been known along this line.

"There is a large acreage of lettuce along the Gainesville and Gulf this season—in fact the largest I have ever seen," remarked one trucker Tuesday. "The plant is maturing beautifully, and the growers feel reasonably sure that in lettuce they will have a good thing this season."

As was stated a day or two recently, Superintendent Barker of the Gainesville and Gulf has made a survey of the situation, and has pronounced the prospects in all vegetable crops bright. The weather conditions have been favorable, and the growers will reap the benefit.

The Colonel's Waterloo.

Col. John M. Fuller of Honey Grove, Texas, nearly met his Waterloo from liver and kidney trouble. In a recent letter he says: "I was nearly dead of these complaints, and although I tried my family doctor he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure dyspepsia, biliousness and kidney disease by all druggists, at 50c a bottle.

A "Drummer Farmer."

J. F. Jackson of Bronson was at the Brown House yesterday. Mr. Jackson has held a lucrative position as traveling salesman for a large New York house for the past twenty-five years, but does not forget his country home near Bronson, which he dearly loves to visit, and which is one of the best in Levy county. He produces on this farm about everything necessary to good living, and stated Tuesday that he had about forty fine country-cured hams which he had made this year, to say nothing of the other products of the farm.

Startling Mortality.

Statistics show startling mortality from appendicitis and peritonitis. To prevent and cure these awful diseases there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, 14 Custom House Place, Chicago, says: "They have no equal for constipation and biliousness." 25c at druggists.

WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions when those questions are asked, even by her family physician. This is especially the case with unmarried women.

Is it any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters received by her prove. Many such grateful letters as the following are constantly pouring in.

Mrs. Ella Lee, Frankford, Ind., writes: Dear Mrs. Pinkham:—

"I want to thank you for what your medicine has done for me.

"Three years ago I had inflammation of the ovaries and ulcers on my womb. I was under the doctor's care for about three months, and the only time I was not in pain was when under the influence of morphine. The doctor finally said I never would be better, and would be an invalid the rest of my life. I had given up in despair, but one evening I came across one of your advertisements and decided to write you for advice. I did so and commenced to take Lydia E. Pinkham's Vegetable Compound. I began to improve at once, and to-day I am a well woman, and I know it is all due to your advice and medicine.

Mrs. J. H. Farmer of 2809 Elliott Avenue, St. Louis, Mo., writes:

Dear Mrs. Pinkham:—

"I cannot thank you enough for what your advice and medicines have done for me. They have done me more good than all the doctors I ever had.

"For the last eight years I have suffered with female troubles; was very weak; had nervous prostration, and could not do my work; but I am happy to say Lydia E. Pinkham's Vegetable Compound has made a different woman of me. I am in perfect health and have gained in weight from 98 pounds to 122 pounds."

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record for actual cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Ask Mrs. Pinkham's Advice—A Woman Best Understands A Woman's Ills.

THE NEWS FROM MELROSE.

Ladies' Aid Society Give Social Tea Death of An Old Citizen.

Melrose, March 13.—The social tea of the Ladies' Literary Society given at their hall on Thursday evening was as usual a very enjoyable affair. After partaking of a fine supper, the table decorations being of dogwood and mock-orange blossoms, a guessing contest was in order. Twenty mysterious packages, all wrapped so the contents could not be easily felt, were handed round for examination. The highest correct guess was 13 out of the 20. Several pretty prizes rewarded the winners. Next came a peanut grabbing contest, which was very amusing, as it looked easier than it could be done. The rest of the evening was filled in by some very fine singing and recitations.

B. E. Kyle and General Freight Agent A. D. Williamson, of the S. A. L., were in town on business Wednesday.

Dr. Curtis and H. B. Tolles represented Melrose at the recent Shriners' meeting at Jacksonville, and report having had a first-class time.

N. D. Priest celebrated his seventy-fifth birthday on March 8th by a dinner party.

Mrs. Kalsadra Pinner, another one of the first settlers near Melrose, died on Monday, and was buried on Tuesday afternoon at Eliam Cemetery. A large number of friends were present.

Another party of six will leave Thursday for an Ocklawaha trip

H. A. Blake, a former resident of Melrose, was up on a short visit from Sarasota recently.

The rates are known as Class P, and refer to lumber and lath.

The article recently published in this paper in reference to birds protected by the game law was misleading. The article was taken from one of our State exchanges, hence the error. Robbins are not protected in this State, neither are doves. It is unlawful, however, to kill robbins within the city of Gainesville, and all song birds and birds of plumage are protected by the State law.

HAS HELPED GAINESVILLE.

The establishing of the Bible Conference and the Chautauqua in our city has done more to advertise Gainesville than anything else that has ever happened. It has brought people here for that pleasure alone—of attending such a season of Bible study and wholesome amusement.

One gentleman, who with his wife and another lady have been here, said he saw an announcement of the Chautauqua in a little Sunday school paper published in Georgia and they came here. They were so pleased with the meetings and the city that he said they would come again.

Two ladies who had heard of Gainesville through the Chautauqua, came here and were delighted with the place. They will not only come again, but will bring others with them, besides telling others of the pleasant city, excellent drinking water and kindly-disposed people they saw here.

Anything that tends to draw good people to our city is a good thing, as these people help the city. If by any means a dollar is started to roll down the street, someone is going to get it, and it takes money to make the city grow. Indirectly everybody is benefitted by every new dollar that comes into town.

We have every reason to be thankful for these assemblies, and were it not for the efforts of Dr. Clarence B. Strouse, who has labored faithfully to make them a success, there would not be so many people in the country as there is today to speak in tones of praise of Gainesville and her people. He is deserving of the thanks of all for his efforts, and we doff our hat to Mr Strouse.

SILLY UTTERANCE.

Dr. William Osler of the John Hopkins University of Baltimore has made nearly every man in this country who is past 40 years of age mad as a March hare because he stated that after that age they should be chloroformed, as they had outlived their usefulness. The good doctor was 57 at the time he made the assertion and expected to leave the country soon, no doubt desiring to give something to the people by which he would be remembered. But he has caused a considerable worry and to allay this feeling and appease some who have not slept a wink since the statement was made, the following compilation of what men have done who were past 40 years of age may have a tendency to calm their fears and restore them to their ordinary peace of mind and thank Rev. Thomas Gregory for his time devoted in looking up the matter:

Beginning with Demosthenes, we find that the great Athenian delivered his oratorical masterpieces, the orations "On the Crown," at 54.

Aristotle did his greatest work after 50, and Plato after 55.

Chaucer wrote the "Canterbury Tales" and other famous works after 40.

Spinoza wrote his epoch-making book after he was 42.

Lawrence Sterne wrote "Tristram Shandy" after he was 47.

Cervantes was 50 when he began to write the immortal "Don Quixote."

Defoe was 54 when he gave the world "Robinson Crusoe."

Oliver Cromwell did not begin his wonderful life work until he was 43.

Titian was over 40 when he began work on the renowned masterpiece "The Assumption of the Madonna."

Leonardo da Vinci, who, we are told, comes nearest to being history's "universal genius," was 45 years old when he painted "The Last Supper."

Sir Christopher Wren designed St. Paul's Cathedral at 46 and the towers of Westminster Abbey at 80.

Morse was 41 when he gave the world the telegraph.

John Hunter, the celebrated physician, wrote his greatest treatise when 66 years of age.

Pasteur was 53 before he fairly got to work on his hydrophobia cure.

Past 40, too, was Mohammed before he began to write the Koran and to organize the scattered tribes into Islam.

Mommsen was on the shady side of 40 when he wrote his monumental history of Rome, and the other great German historian, Ranke, did not begin his "History of the World" until he was 80.

From the way Oyama bucks the center and makes gains around the end, he has clinched a job as a football coach as soon as he gets through his present engagement.

GRAND LODGE K. OF P.

At the meeting of the Grand Lodge of Knights of Pythias of Florida, held at Tallahassee last week, the following officers were chosen for the ensuing year:

M. W. Stewart of Palatka, Grand Chancellor Commander.

Henry Horsler of Pensacola, Vice-Chancellor.

Lewis C. Lynch of Gainesville, Prelate.

J. Emmet Wolf of Pensacola, Master-at-Arms.

Harry Pritchard of St. Augustine, Inner Guard.

H. Clay Crawford of Tallahassee Outer Guard.

W. H. Ellis of Tallahasse, Supreme Representative.

There was a spirited contest for Outer Guard, the other officers being in line for advancement. The attendance was large and the delegates were entertained in royal style by Cicero Lodge.

The Grand Temple of Rathbone Sisters, which also met at the same time, elected the following officers:

G. C.—Mrs. Lillie Morris.
G. S.—Mrs. F. M. Williams.
G. J.—Mrs. A. Maas.
G. N. R. C.—Mrs. Weltzer.
G. M. F.—Mrs. C. Nedley.
G. M.—Mrs. Richards.
G. P. T.—Mrs. Brandon.
G. O. T.—Mrs. K. Cochran.
S. R.—Mrs. Morton.

ASKED TO RESIGN.

The Board of Commissioners of State Institutions met at Tallahassee on Monday and adopted a resolution requesting the resignation of the superintendent, Dr. V. H. Gwinn, and the physician, Dr. E. Christie, of the Florida Hospital for the Insane at Chattahoochee. This action was precipitated by disagreements which have developed between these two leading officials and it was deemed to be for best interests of the institution to ask for their resignations, to take effect upon the qualifications of their successors.

The board at the same time also elected Capt. B. F. Whitner of Sanford to be superintendent of the hospital, Dr. R. L. Goodbread of Mayo to be physician, and Dr. James H. Randolph of Tallahassee to be assistant physician. The assistant physician was provided owing to the largely increased number of patients now in the hospital.

STATE COMPETITION.

The experience of some of the States of the Union in dealing with those in charge of institutions controlled by the commonwealth has shown a desire to graft that is certainly alarming. In several instances where the men who are connected with such institutions have been caught they have simply stated that there are others as much implicated as they are and then have quietly waited the application of the kalsomine to make them spotless again.

State ownership of the oil refinery in Kansas is looked on with fear and trembling by many who see a chance for graft. Gov. Hock says it may have the semblance of Socialism, but it is not, and that "its soul is that of competition." While it is desirable to establish legitimate competition, there are grave doubts regarding the policy entered into by the State of Kansas.

GOVERNOR'S APPOINTMENTS.

Governor Broward has recently made the following additional appointments of notaries and justices for different portions of the State:

Notaries—H. L. Knight, W. P. Gifford, J. W. Walker, R. W. Bennett, Jacksonville; L. R. Grimes, E. M. Hendry, Tampa; R. R. Jones, J. T. Stokes, LaCrosse; Joe Henderson, West Tampa; William J. Jarvis, Lovett; Meloin A. Lewis, Jennings; C. E. Spencer, Dade City; J. D. Goss, Pensacola.

Also, J. H. Butler of Romeo, to be justice of the peace for the Fifth district of Marion county.

T. J. Hill of Maitland, to be justice of the peace for the Third district of Orange county.

The winter and early spring visitors still continue to come to Gainesville, many of whom are on their way to the North from the Southern part of Florida and Cuba. Some of them are compelled to stop here to recuperate after a season in the localities that are less favored than Gainesville for health. The pure air one enjoys at this point, the excellent water for drinking purposes and bathing, makes Gainesville a city much sought by invalids as well as those who would seek a few weeks of rest after touring in other portions of the State.

NEW IRISH POTATO.

Luther Burbank, the transformation wizard of California, having fixed the floral world to his liking, has invaded the vegetable kingdom and is now at work on a new potato. He gained his original fame by improvement of this useful tuber, but is ambitious to extend his conquests in this direction. A potato that has grown wild in the central part of South America, an ordinary scrub potato, scorned even by the Indians, but so hardy that it has survived its lack of cultivation and natural disadvantages since the centuries before the Incas, has been taken up by the magician of the vegetable world and will be made an edible and highly prized article of commerce. Mr. Burbank has been working on the evolution process for a year and he thinks that he will eventually produce out of the South American wild potato the very finest potato the world has ever known.

As many of the old varieties of potatoes have gradually run out and lost their good qualities with constant cultivation, this new specimen may prove of value to farmers who contemplate cultivating the Irish potato.

The impression seems to prevail that the Emperor of Russia is controlled by a coterie of designing men, who are working to oppose every good intention the Czar may have. It has been shown that such is not the fact. The Emperor is a conceited nonentity, believing himself of divine origin, and being ignorant of the true meaning of the word, seeks to carry out his plans by oppression. His cabinet evidently being aware of the result, and regarding him as being a sufferer from enlargement of the cranium, which is overflowing with his own estimation of himself, are satisfied to let destruction come to him so long as they are safe. The Czar of all the Russias is working his own destruction and has not intellect sufficient to see it himself, but is too muleish to listen to advice.

The enterprising citizens of Tampa deserve credit for their cleverness in buying the Tampa Bay Hotel property intact and selling it to a company that will run it in the future as a hotel. The Tampa Bay is the most substantially built and furnished of any resort hotel in Florida, and if the city of Tampa keeps on growing as it has in the past few years this hostelry will be needed right along the entire year to accommodate the first-class trade of that city.

Florida has nineteen daily papers, and there is no reason why the publishers should not have an organization the same as the publishers of daily papers in several other States. Meetings might be held at the same time and place the State Press Association meets.

During a terrific wind and rain storm at Santa Barbara, Cal., March 12 and 13, upwards of $41,000 in damages to pleasure boats, etc., was done. The ocean boulevard had 600 feet washed away. Four inches of water fell in 36 hours.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

CLOSING FUNCTIONS A GRAND SUCCESS

Dr. Strouse Expects to Make Them Still Greater Next Year.

WANTS A FINER PROGRAM

Has Already Secured Some of the Finest Talent in the United States for the Next Session, Being Compelled to Engage Them in Advance.

After a successful session of six weeks the Winter Bible Conference, the Christian Workers' Institute and the Gainesville Chautauqua, closed their second annual meetings, which were highly interesting, instructive and enjoyable in every sense of the word.

The people of Gainesville owe a debt of everlasting gratitude to the man who brought these attractions here, Rev. Clarence B. Strouse. It was almost solely through the earnest efforts of this distinguished and earnest worker that the functions have proved of such eminent success, and to him is due the presence of so many strangers in our city during the season, being attracted here by the high class of entertainment which was secured, and through persistent advertising.

Next Year's Program.

Filled with enthusiasm over the sessions just closed, Dr. Strouse has already gone to work on the programs for next year. He states that the prospects for the next season, as far as the program is concerned, promises to eclipse anything ever brought to Florida before. "I expect to have the greatest speakers and workers for the Bible Conference we have ever had, and I can assure you will be the best

DR. C. B. STROUSE,

The Man Who Has Accomplished So Much for Gainesville.

the United States affords. Dr. David Vaughn Gwilym and Dr. Tigert will probably be the only speakers of the old program. These gentlemen are both eloquent and earnest, and I appreciate them to such an extent that I have retained them for next season. Dr. J. Wilbur Chapman of Chicago, one of the most noted revivalists in the United States, with whom I have been associated on several occasions, promises to be here for the entire session of six weeks. Dr. R. V. Miller of New York, a noted Bible teacher, has also been engaged for the entire season. I was compelled to engage Dr. Miller a year in advance, so great was the demand for his services in all parts of the United States."

Dr. Strouse stated that in addition to these famous divines he is already in correspondence with a number of great workers to secure their services for next year. The Christian Workers' Institute will be in the hands of an able teacher. Dr. Strouse has two or three parties in view, and has not yet decided whom he will send for this particular work.

The Chautauqua.

"Referring to the Chautauqua," remarked Dr. Strouse, "I am just in receipt of a letter from Dr. Davidson, the manager, assuring me that if the people of Gainesville will stand by him in the promotion of this enterprise which has accomplished so much for Gainesville, he proposes to present a still greater program than the one just closed. Every progressive citizen of Gainesville should stand by this enterprise, which is one of the greatest and most beneficial that can be offered to any city. The Chautauqua is yet in its infancy, but already we can feel its results, as was demonstrated by the large number of strangers attracted here this season. This class of entertainment, which is both moral and refining, forces Gainesville to the front as a most desirable resting-place for winter visitors—and if given the proper support the Chautauqua and the city must naturally go hand-in-hand on the road of progress each year."

When we look at the excellent program of high-class talent and see the great number on the program, and consider that each must be paid—one lecturer receiving as high as $200, and one entertainment consuming $80 worth of liquid air in the demonstration of its value from a standpoint of knowledge, to say nothing of the expenses and enormous railroad fare in moving more than thirty people who took part in the program, it can readily be seen what an expensive enterprise the Chautauqua is proving, and how much benefit the city is receiving for so little expenditure, to say nothing of the enjoyment afforded those who help the enterprise financially.

An effort is being made now to secure a "star" list of tickets for the next season. George W. Hyde, who originated the suggestion, headed the list and has the matter in hand. The price of the ticket for the entire season will be $10. This suggestion was made and accepted to prevent the selling of tickets at cut prices, as was the custom in some instances this season, and also as an advanced assurance of the confidence of the people of Gainesville in the enterprise. When Dr. Strouse is presented the list, be sure that he is encouraged by seeing your name among the number. As the Doctor says, "Actions speak louder than words."

WINDSOR NOTES.

Undue Alarm About Cabbage Snakes. Winter Visitors Return Home.

Windsor, March 15.—Rev. Mr. Christian, an evangelist from Kentucky, has just closed a week of very interesting meetings at this place. Mr. Christian's next place where he will hold meetings is Barton.

Mr. and Mrs. Judah, together with Mrs. Judah's parents, Mr. and Mrs. Patterson, have returned to Indiana. Mrs. Willard has also returned to her home in Indiana.

Dr. and Mrs. Middleton have departed for points in South Florida.

The people of Windsor very much regret that Dr. Eyre was obliged to return North so early. He will be long remembered for the many kindnesses he performed while here.

The severe cold snaps we had during the past winter did less harm than people imagined. The orange trees here are entirely unhurt. They are putting out a fine growth and some trees are showing many blossom buds.

Messrs. M. J. Beckham and J. J. Wilkinson each have fine patches of cabbage, from which they are now cutting marketable heads. There are many people deterred from eating cabbage on account of the rumor of "cabbage snakes" being revived again this year. To all who have become nervous about using this healthful vegetable, we would suggest that they send to the United States Bureau of Entomology a request for a copy of Bulletin No. 44, of that office. On page 89 of this bulletin they will find the subject of cabbage snakes discussed at considerable length, and I trust they will be gratified to learn that most, if not all the reported cases of poisoned cabbage are groundless, and that there is no more danger in eating cabbage than in eating any other vegetable.

A free bottle of Dr. Thacher's Liver and Blood Syrup will be sent to any reader of this paper who will write to the Thacher Medicine Co., Chattanooga, Tenn.

FROM MR. LETSON.

Gives an Idea of Trucking Interests in North Carolina.

R. E. Letson, formerly of Micanopy but now residing in Newbern, N. C., in remitting his subscription to The Sun writes interestingly as follows:

"We are having a cold northeast storm and it is bad weather. It has been very warm for the past ten days. We can see a little life in some of the trees. Maple and redbud are putting out just a little. There is nothing green except a few people who know the difference between North Carolina and Florida.

"The lettuce is fine. We have six acres under cover. Mr. Suttler has four, Spicer & Clark have six, Mr. Bray has four—all under cover. That takes in the lettuce in this section. The cabbage crop will be good. They bed the cabbage land and set on the south side of the bed. They set in November. The little plants stay there and freeze all winter, and, about the middle of March they side-dress them. That is the first work they get. I see some peas up. We planted seventy-five acres in potatoes the past week."

A Lucky Find.

Wednesday afternoon Wm. Anderson picked up from the floor of the waiting room at the Atlantic Coast Line depot a crisp $10 bill. He reported the matter to Ticket Agent Goodwin, and while they were talking the matter over a telegram from Hague was handed Mr. Goodwin bearing the information that a young lady had lost the money and asking him to try to find it in the waiting-room, as she remembered having it there. Mr. Anderson naturally delivered the money to the keeping of a relative of the young lady here, and it will be safely returned to her. It was a lucky find—for the owner.

Death of Mr. Ward.

Information has reached this city of the death of S. D. Ward, which sad event occurred at his home in New York City on the 4th inst. Deceased was the father of Mrs. E. W. Shaw, formerly of this city, but now residing in Tampa. He is well known here, having visited Gainesville on several occasions. Friends of Mrs. Shaw sympathize deeply with her in the loss of this relative.

POLITICAL ANNOUNCEMENTS.

This Pretty Girl Saved From Catarrh of the Lungs By Pe-ru-na.

MISS FLORENCE KENAH.

Miss Florence E. Kenah, 431 Maria street, Ottawa, Ont., writes:

"A few months ago I caught a severe cold, which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset, and my head and back began to ache severely and frequently.

"I was advised to try Peruna, and although I had little faith I felt so sick that I was ready to try anything. It brought me blessed relief at once, and I felt that I had the right medicine at last. Within three weeks I was completely restored and have enjoyed perfect health since.

"I now have the greatest faith in Peruna." *Florence E. Kenah.*

WOMEN SHOULD BEWARE OF CONTRACTING CATARRH.

The cold wind and rain, slush and mud of winter are especially conducive to catarrhal derangements. Few women escape.

Upon the first symptoms of catching cold Peruna should be taken. It fortifies the system against colds and catarrh.

Pe-ru-na for Colds and Catarrh.

The following interesting letter gives one young woman's experience with Peruna:

Miss Rose Gerbing, a popular society woman of Crown Point, Ind., writes:

"Recently I took a long drive in the country, and being too thinly clad I caught a bad cold which settled on my lungs, and which I could not seem to shake off. I had heard a great deal of Peruna for colds and catarrh and I bought a bottle to try. I am pleased that I did, for it brought speedy relief. It only took about two bottles, and I consider this money well spent.

"You have a firm friend in me, and I not only advise its use to my friends, but have purchased several bottles to give to those without the means to buy, and have noticed without exception that it has brought about a speedy cure wherever it has been used."—Rose Gerbing.

Pe-ru-na Contains no Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

WHITE ROBED SPIRIT ARRESTED

Police Nab Woman for Getting Money Under False Pretenses.

Chicago, March 14.—After a struggle with a white-robed "Spirit" in a room in Seber street, a city detective has arrested the spirit, despite desperate resistance. The spirit turned on the visitor from the other world was found to be Mrs. Jeanie Nichols and young and extremely muscular woman. She will have a hearing today on charges of obtaining money on false pretenses. The detective's shirt was badly torn in the fight.

The raid on Mrs. Nichols' place was the first move in a general crusade against "fake" materializations, spirit painting and spirit photographing which had been undertaken by the police.

THE KEY TO YOUR SYSTEM IS YOUR LIVER

The principal civilized nations of the world guard jealously and expend millions annually to protect those strategic positions, or strongholds, recognized as the "key" to their national integrity.

Your liver is the stronghold that you **must fortify and guard** against the attacks of disease. Your liver is "**The Key to your System.**" Take care of your **liver** and your liver will take care of **you.**

Sharp-edged uric acid crystals are forming in your blood; Bright's disease, rheumatism, diabetes, inflammation of the bladder, dropsy, stone in the bladder, and many other similar enemies of your system are marching against you. They must reach your system **through your liver.** If you **fortify** this stronghold against them you **conquer disease** and **win robust health.** If you **neglect** your liver they will **capture** it and **overrun your entire system,** breaking down tissue through the nerves and blood. Diseases of the heart and lungs, skin diseases, constipation, rheumatism and stomach troubles naturally follow.

Dr. Thacher's LIVER & BLOOD SYRUP CURES

The only preparation that drives out **all** these troubles is **DR. THACHER'S LIVER AND BLOOD SYRUP.** It **cures,** because it goes to the **seat of the trouble at once.** It drives these disorders out of your liver; it **strengthens** "The Key to Your System" and **fortifies** it against **future attacks.** It makes you well by making your liver well.

DR. THACHER'S LIVER and BLOOD SYRUP is an **honest** medicine—an accurately compounded preparation of pure medicinal herbs. No nerve-deadening opiates—no harm in a thousand bottles.

Dr. Thacher's Health Book will tell you why you are sick, and how to be well. Send for it, and a sample bottle of **DR. THACHER'S LIVER AND BLOOD SYRUP.**

NEW REMEDY FOR TRUSTS.

Governor Stokes Says Minister Can Do More than Lawmakers.

Atlantic City, March 14.—Before the ministers of the New Jersey conference Governor Edward C. Stokes advanced the suggestion that prayer and preaching would be a better remedy for the evil's of trusts and railroad combinations than the usual laws enacted by state and nation. This was brought out in an address to a newly ordained class of ministers.

"While I am a full believer in passing remedial legislation," he said, "it has been my experience that any sort of law will be circumvented by human ingenuity. What is needed is a higher sense of honesty and right, which will prevent the oppression of the poor by those in power, and inculcation of this principle is the business of the preachers of the country rother than the legislators."

Maniac at the Throttle.

Chicago, March 14.—Climbing stealthily aboard a switch engine on the Illinois Central railroad, near Ninety-first street, an insane man opened the throttle and ran the engine at full speed to Parkside, several miles away. Reversing the lever he leaped from the locomotive, which flew back over the route which had just been traversed, and crashed into another switch engine near the starting point. Both engines were thrown from the track and badly damaged. The engineer of the second locomotive, having warning of the approach of the runaway, leap in time an descaped.

A Living Monument.

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city.

What a remarkable record—a breathing, thinking, moving monument, composed of human lives,—that for which every other earthly possession is sacrificed.

The Miles Medical Co. receive thousands of letters from these people like the following:

"I feel indebted to the Dr. Miles' Heart Cure for my life. I desire to call the attention of others suffering as I did to this remarkable remedy for the heart. For a long time I had suffered from shortness of breath after any little exertion, palpitation of the heart; and at times terrible pain in the region of the heart, so serious that I feared that I would some time drop dead upon the street. One day I read one of your circulars, and immediately went to my druggist and purchased two bottles of the Heart Cure, and took it according to directions, with the result that I am entirely cured. Since then I never miss an opportunity to recommend this remedy to my friends who have heart trouble; in fact I am a traveling advertisment, for I am widely known in this locality."

SCIENTIFIC MARVEL OF THE AGE

Wireless Telegraphy and Radium Assist in the Working of Wonders. Last Chautauqua Meeting Largely Attended—Talk by Dr. Strouse.

The lecture of Prof. W. B. Patty at the Tabernacle, Tuesday afternoon, drew a large audience, and the illustrations in wireless telegraphy were very much enjoyed. The liquid air demonstrations were wonderful indeed and astonished the people more than they had anticipated. A handkerchief was frozen so it could be broken into small bits, also a piece of beefsteak was frozen in a similar manner. The whole program was of deep interest to all, and many marvelled at the wonders manifested. Some went so far as to say there was a trick about the submerging of a rose in liquid air and making it so brittle it could be crushed into atoms.

In the evening there was another large audience to witness the demonstrations with radium, wireless telegraphy and liquid air, and to say that it was grand gives but poor expression to this presentation of these wonder-working discoveries. The audience looked on with awe and wonder, and the only way you can get a comprehensive idea of the workings of the three is to see the experiments. The same lectures and experiments should be seen a second time, and there is no doubt but what they would draw a large audience.

Before the evening lecture was begun, Dr. Clarence B. Strouse made a short address in which he stated the facts regarding the Gainesville Chautauqua, and spoke of the work done by Dr. W. L. Davidson, manager, in his efforts to secure the best talent he could for the meeting now brought to an end. He said he would be in Gainesville a few days before his departure for his home, and requested the business men and all interested to see him before his departure, to settle the question as to whether these annual meetings would be kept up. He spoke of his kindly feeling for the people of Gainesville, thanked those who had manifested an interest in the work and hoped it would be continued. In closing he feelingly spoke of the interest which had been shown in the welfare of the people and bade the audience good-bye with the quotation: "God be with you till we meet again." He was heartily applauded at the close.

Prof. Patty, before opening his regular lecture, talked very complimentary of the Chautauqua and the city of Gainesville. He felt sure the people would stand by Dr. Strouse, who has labored aithfully for the Chantauqua. He lauded the city, the attractions and the attractive program. He said he thought that Dr. Strouse had manifested his interest from high motives to give the people a good Chautauqua meeting, and not from a monetary point, and felt sure they would continue the work and he would appear here next year with a better exhibition than he had on this occasion. He was interrupted several times with applause and his address was given in a manner that convinced many that he spoke from his heart.

High Springs Building.

A. E. Summers of High Springs, member of the firm of the Summers Furniture House, was among the visitors to this city Tuesday. He states that High Springs is on a little building boom just now. The Summers Furniture House, which was recently destroyed by fire, has been rebuilt in more modern style. W. C. Summers is erecting a substantial brick store on the site of the building recently destroyed by fire, which will be occupied as a millinery store by Mrs. G. W. Easterlin, and E. K. Anderson, with a desire for comfort and convenience, is erecting a handsome cottage. Altogether, High Springs is on a boom in the building line.

J. D. Vaughn of Traxler and A. V. Ellis of Santa Fe were in the city yesterday and made The Sun an agreeable call.

J. T. Collins and W. A. Porter, two progressive citizens of Rochelle, were visitors to the county capital yesterday.

J. M. and S. L. Turner of Micanopy and W. S. Jackson of Lake View formed a trio of visitors to this city yesterday.

F. Marion Ramsey of Wacahoota and James Harrison of Clyatt were among those who favored Gainesville with a visit yesterday.

W. T. McLendon, the boss melon grower of Alachua, was transacting business in this city yesterday. He states that he has an extensive stand of melons this year.

A. L. Webb, a prominent merchant of Hawthorn, was in town today, looking for a location to do business. He is a pleasant gentleman and we trust Ocala will open up something for him. —Ocala Star.

Judge Mason has issued marriage licenses during the past two days to Amos A. Richards and Elearnor L. Lillian, Kelly Childs and Betty Cooper, colored. The marriage market has been rather slow for the past few days.

Nat Bolen, the colored truck grower of Clyatt, called at The Sun office yesterday and renewed his subscription. He makes a specialty of growing lettuce and cucumbers and is now shipping daily of the former, for which he is receiving good returns.

With a desire to keep pace with the times, as well as to more promptly meet the demands of their rapidly increasing business, Benson & Son, the carriage and wagon manufacturers, have decided to displace their steam engine and install a twenty horse-power electric motor.

E. C. McMahan, who has the contract for the brick work of the new building for the Diamond Ice Company at Alachua, is in the city, having been detained from his work on account of the inclement weather. The work is well under way, however, and with favorable conditions will be pushed rapidly to completion.

Walter Watkins has accepted a position as collector with the Collier publications, and left Sunday for Jacksonville, where he will assume his duties. Mr. Watkins has been for the past two years employed as a salesman in the store of Marcus Endel, and has made many friends here who regret to see him leave, but wish him well in his new position, which will be a traveling one.

Monroe Venable and W. J. Jones, comprising the firm of Venable & Jones, manufacturers of lumber and naval stores, Kanapaha, were transacting business in this city yesterday. Mr. Venable states that the naval stores department of the firm will work eighteen crops, or 180,000 boxes this year and that distilling has already begun, the first carload having been shipped yesterday. This product was all virgin. The firm expects to make this year from 850 to 900 barrels of spirits and about three times that quantity of resin.

Wm. Anderson has returned from the West End, where for the past few days he has been engaged in constructing a telephone line from Clark to Dutton for the Central Phosphate Company. The instruments have been installed and the system is working nicely.

P. G. Ramsey of Wacahoota, erstwhile county commissioner and one of the most progressive farmers in the county, was transacting business in this city yesterday. Mr. Ramsey states that his section has been visited by most refreshing rains, which were of great benefit to the growing crops.

Dr. Schlater of Micanopy was in the city yesterday. He is interested with J. N. Craig in the trucking business, and states that all vegetation is looking fine and that shipments will begin in a few days. Schlater & Craig have about ten acres in cultivation, diversified crops.

J. B. McDonald has decided to open a real estate business, and has rented an office in the Williams Block, West Main street, N., with W. E. Dow. Messrs. McDonald and Dow have furnished their offices in a neat and modern manner, and will be glad to have their friends call and make themselves at home.

After a visit of about ten days to her brother, Albert Weber, North Gainesville, Miss Martha Weber of Port Chester, N. Y., has gone to Ocala. After a brief stay there she will take the delightful Ocklawaha trip, which is said to be among the most weird, as well as the most romantic trips of the kind in the world.

Owen Lloyd has begun the erection of a neat six-room cottage on East Lemon street, which will be a great improvement to that section of the city. When completed the house will be placed upon the market for rental purposes. This will be the second cottage erected by Mr. Lloyd within the past few weeks.

D. M. Dean, an extensive naval stores operator of the East Coast was has become deeply interested in Gainesville, purchased valuable property and moved his family here, is spending a short time with them. Mr. Dean has confidence in Gainesville, and says it is the cleanest and most moral city he has ever seen.

Mrs. Joseph A. Ettel has returned from a pleasant visit to Havana, Cuba, where she was the guest of Mr. and Mrs. M. W. Wooding. She was charmed with that great city, as well as delighted to be with her old Gainesville friends in Cuba. The numerous friends of Mrs. Ettel are glad to see her home again, as she is a great social favorite here.

"It do pay" to advertise. That's the conclusion of M. B. Saunders, who advertised in Sunday's daily and Monday's weekly Sun a tract of land on Levy Lake for sale. Mr. Saunders states that he has already received a number of inquiries, which he feels positive will result in a sale. The land in question is known as the Fiewellen place, and is among the most desirable properties in this section of the State.

Mr. and Mrs. G. W. Hutchinson and Mrs. Laughlin, the latter's mother, all of Lineville, Iowa, who have been spending the past few weeks here pleasantly, departed yesterday for Daytona and other points on the East Coast. After sojourning there for a few days the trio expect to return to their Western home. They are well pleased with Gainesville and her people, and expect to return again for a longer stay next season. While here they occupied the Thrasher cottage, East Main street, N.

READ THIS.

Lexington, Tenn., June 5, 1901.

This is to certify that about March last I suffered intensely with my back and kidneys. Just prior to this I had undergone treatment for bladder trouble and was relieved, except the treatment was followed by the above trouble. It was recommended that I try "Texas Wonder, Hall's Great Discovery." I took one dose on retiring at night, and to my agreeable astonishment, I found myself relieved. One dose did the work. There is no bosh about this. It is wonderful.

Respectfully,
C. R. Scott,

C. R. Layton,
Captain Commanding Company.

Is it Right?

Is it right that a property-owner should lose $4 20 to let a dealer make 50 cents? A dealer makes 50 cents more on fourteen gallons of ready-for-use paint, at $1 50 per gallon, than our agent does on eight gallons of L. & M. paint and six gallons of linseed oil, which make fourteen gallons of the best paint in the world, at $1.20 per gallon; the property owner loses just $4.20. Is it right?

It only requires four gallons of L. & M., and three gallons linseed oil to paint a moderate sized house.

Ten thousand churches painted with Longman & Martinez L. & M. paint.

Liberal quantity given to churches when bought from S. J. Thomas, Gainesville, J. C. Bishop, Alachua.

Rev. Mr. Farris of McIntosh, W. G. Shehee of High Springs and S. C. Dell of Alachua were among those who paid Gainesville a visit yesterday.

C. D. Schafer departed yesterday for Williston, where he went to arrange for the erection of three fine tombstones.
